## Ahşabı Geliştiren Teknoloji...

Hikâyemiz, gelişen teknoloji ile ahşabın kişiye ve kurumlara özel işlenip geliştirilebileceği hayaliyle 1984 yılında Antalya'da başladı. 30 yılın sonunda, sadece bu hayalimizi gerçeğe dönüştürmekle kalmayıp, değişime yön vererek Türkiye'de ve ihracat yaptığımız 60'dan fazla ülkede kalite ve güvenin temsilcisi olmayı da başardığımızı gördük.

İşe profil ürettiğimiz küçük bir atölye ile başladık. Bugün ise en son teknolojiyle donatılmış, 400.000 m<sup>2</sup> üretim alanına yayılı Entegre MDF Sanayi tesisi ile 1000'i aşkın personelin hizmet verdiği, 8 farklı ürün grubuna sahip modern bir üretim merkeziyle yaşam alanlarınızı kalitemizle ve estetiğimizle farklılaştırmaya devam ediyoruz.

AGT olarak; MDF, MDF-Lam, panel ve profil üretimiyle mobilya ve dekorasyon sektörlerine; ahşap kapı, duvar paneli, parke ve süpürgelik üretimiyle de inşaat sektörüne hizmet vererek, bir yaşam alanının ihtiyacı olan tüm ahşap malzemeyi tek başına üreten Türkiye'nin öncü markası olduk.

Kurulduğumuz ilk günden bu yana, etik değerimizden ve kalite prensiplerimizden ödün vermedik. Küçük-büyük demeden tüm müşterilerimiz, çalışanlarımız ve iş ortaklarımız için; kalite, trend ve gelişim bizim hala ana hedefimiz. Bugün, 5 kıtada 1000'den fazla satış noktamız ile kaliteye ve estetiğe önem veren milyonlarca insanın yaşam alanına, renk, şıklık ve sürdürülebilir canlılık katıyoruz. Çalışanlarımızın ve ürünlerimizi tercih edenlerin sağlığına ve çevreye duyarlılık, üretim anlayışımızdaki birinci önceliğimiz olmaya devam ediyor.

Bugün, uzun vadeli ve stratejik düşünen, uluslararası standartlara uyumu en önde tutan, "Ahşabı Geliştiren Teknoloji" vizyonuyla sadece ülkemizde değil, küresel arenada da pazarı yönlendiren bir lider oyuncu olma yönündeki kararlılığımızla, kaliteyi, estetiği ve şıklığı önemseyenlerin tercihi olmayı sürdürüyoruz.

## Wood Developing Technology...

*Our story started in Antalya in 1984 with the dream that wood could be custom processed for individuals and companies using developing technology. After 30 years, not only have we made this dream come true, we have also succeeded in representing quality and trust in Turkey and in the over 60 countries that we export to.*

*We started out with a small workshop where we produced profiles. Today we continue to create distinctive living areas for you with our quality and aesthetics in our modern Integrated MDF Industry facility with a production area of 400,000m<sup>2</sup>, the latest in technology, over 1000 employees and 8 different product groups.*

*As AGT we have become the first brand in Turkey to produce all of the wood materials that could be needed in a living space on our own by serving the furniture and decoration sectors with MDF, MELAMINE FACED MDF, panel, profile and cover production; and the construction sector with wood doors, wall panel and skirting board production. We are proud to be a leading company that is sought after in the sector with its trend setting color and surface choices. We strive to always be one step ahead by conducting R&D work combining our image of the living areas of tomorrow, our quality concept and criteria with our innovative approach.*

*We have never compromised on our ethical values and quality principles since the first day of our establishment. No matter how big or small our main goal for all of our customers, our employees and our business partners is quality, trend and improvement. Today we add color, style and sustainable vitality to the living areas of millions of people who place importance on quality and aesthetics in 5 different continents at over 1000 sales locations. We conduct all of our processes in accordance with the ISO 9001:2008 quality system and produce all of our products in compliance with the E1 standards. Care for the health and environment of our employees and those who favor our products continues to be our number one priority in our production approach.*

*Today we continue to be decisive on our way to becoming a leading player, not just in our country but in the global arena, with our "Wood Developing Technology" vision based on long term strategic planning and priority for international standards; and the favorite those who focus on quality, aesthetics and style.*

## Parlak bir fikir!

AGT Power Gloss, MDF-Lam üzerine üstün lazer silindir teknolojisi ve UV lak uygulanarak üretiliyor. Bu sayede büyüleyici renklere sahip, mekanik ve kimyasal direnci yüksek bir ürün ortaya çıkarıyor. Mobilya gövdelerinde, mutfak dolaplarında, banyo kapaklarında, çalışma odalarındaki mobilyaların tüm gövde ve ön yüzeylerinde kullanılan Power Gloss, hem kullanıcı hem çevre dostu. Atmosfere VOC (uçucu organik içerik) salınımı yapmıyor.

## A bright idea!

AGT Power Gloss is manufactured by using supreme laser roller technology upon Melamine Faced MDF. So, a product having enchanting colors and highy mechanical and chemical resistance shows up. Power Gloss, which is used in furniture bulk, kitchen cupboard, bathroom lids and front surfaces in working room, is user and eco-friendly. It does not release VOC (volatile organic compound) to atmosphere.

## Mekanınıza yumuşak bir dokunuş: AGT Soft Touch Koleksiyonu.

Bir mekânın, mobilyanın, tasarımının ayırt edici özelliklerinden biri renk ise diğeri hiç kuşkusuz dokusu. Soft Touch Koleksiyonu'nun renkleriyle tanışınca, sadeliğin aslında ne kadar göz alıcı olabileceğini göreceksiniz, yüzeyine dokununca hep aradığınız o kadifemsi dokunuşu bulduğunuzu fark edeceksiniz. Soft Touch duvar panelleriyle aynı renklerde üretilebilen Soft Touch kapılar sayesinde ise, yaşam alanlarınızın havası değişecek. Her mekân bambaşka bir ruh kazanacak.

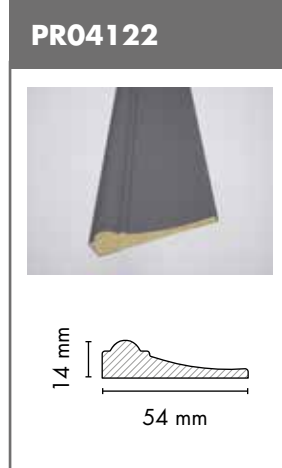

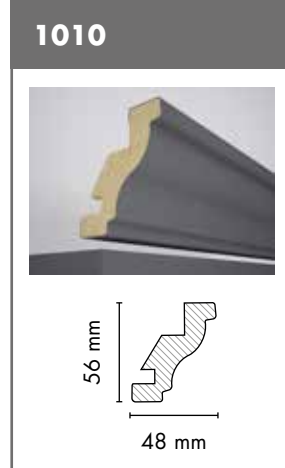

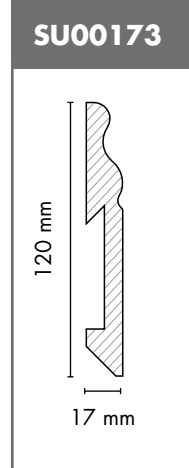

## A soft touch to your place: AGT Soft Touch Collection.

One of the most characterised features of a furniture is color and the other is its own feel of touch. When you meet Soft Touch Collection colors, you'll recognise that how simplicity is glamorous, when you touch the surface, you will realise that you find the velvety touch.

Your living spaces will be refreshed by combining Soft Touch panels and Soft Touch doors and every space will gain another soul.

**728**  
Soft Touch Kaya Gri /  
Soft Touch Stone Grey

**729**  
Soft Touch Yeni Gri /  
Soft Touch New Grey

## Bu şıklığı duvarlar da hak ediyor.

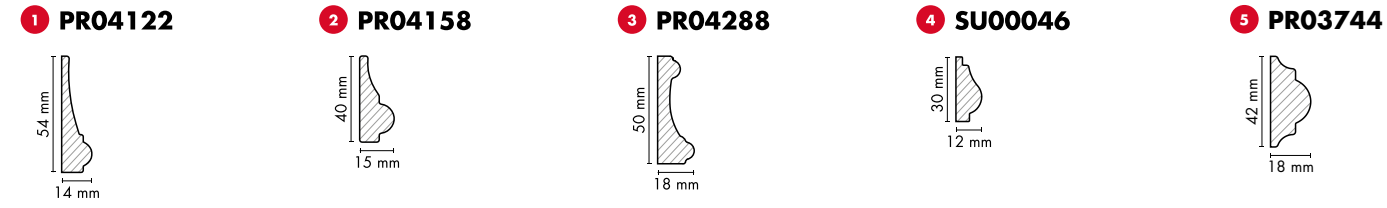

Duvar panelleri sayesinde, AGT'nin birbirinde ilham verici renkleri, göz alıcı tasarımları duvarlara da geliyor. Yalnızca mobilyalar, yerler değil mekanınızın her köşesi başka bir kişiliğe kavuşuyor.

## Walls deserve this elegance.

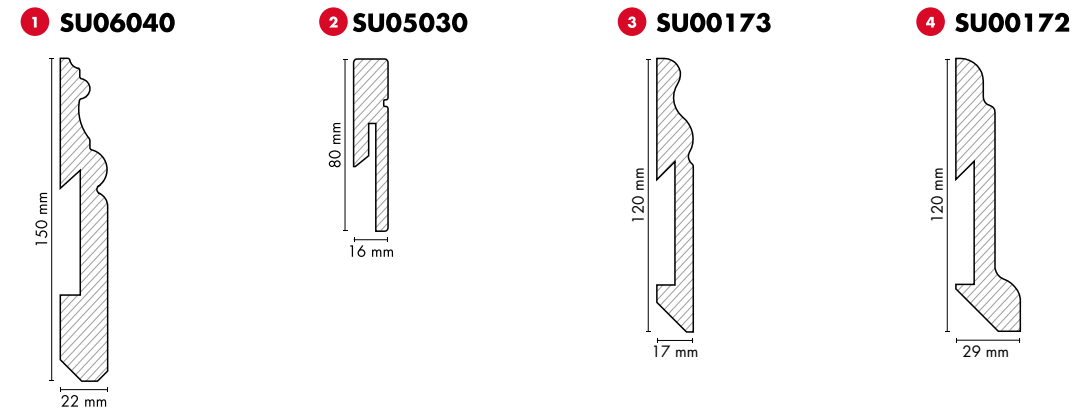

Inspirational, dashy designs of AGT Wall Panels... Not only furnitures and places, but also every edge of your venue reaches a different character.

Parke / *Flooring*

## Kapınızı şıklığa açın.

Gerçekten duymak istiyorsanız doğanın söylediği o kadar çok söz, önünüzde araladığı o kadar fazla kapı vardır ki... Biz de doğadan aldığımız ilhamla size yepyeni kapılar açıyoruz. İşte tamamen doğal, zarif tasarımı ile AGT Natura Kapı Serisi.

## Open your door to elegance.

If you are ready to hear, there are many words said by nature and many doors opened by AGT... with the inspiration that we gained from the nature, we open new doors for you. AGT Natura Door Series is here with its completely natural and its elegant design.

## Benzersiz tasarımların kapısını aralayın.

AGT'nin Natura kapı ile aynı renkte olan yüzey profilleri ve pervaz seçenekleri ile farklı tasarımlar yaratabilirsiniz. Kapıların yüzeylerinde 6mm MDF-Lam kullanıldığı için yatay/dikey derz açılımına uygundur. Bu derzlerde farklı renkte silikon kullanarak değişik modeller elde edebilirsiniz. Aynı şekilde, yüzeyler fuga açılmaya da müsait olduğundan dikey/yatay çita yerleştirerek modellerinizi farklılaştırabilirsiniz.

## Open the door of unique designs.

You can create different designs with surface models that have same colors with AGT Natura door and molding options. Because we used 6mm Melamine Faced MDF on surface of doors, they are proper to horizontal/vertical joint opening. You can gain different models in these joints by using silicone in different colors. Likewise you can differentiate your horizontal/vertical models because surfaces are proper to joint gap.

\* Optionally, various models can be created by adding profiles or joint gaps.

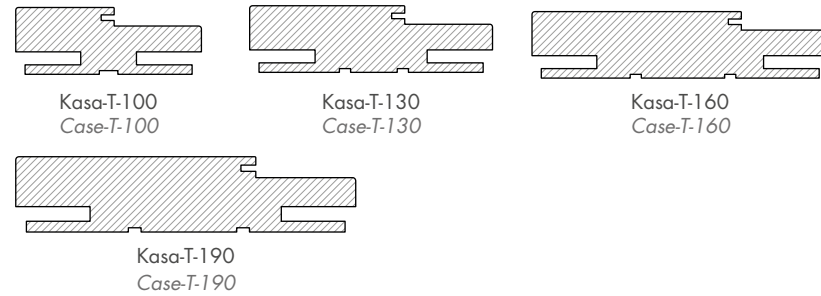

## Genel Özellikler / General Specifications

- Üstün yüzey dayanımı
- Geleneksel kapılara oranla yüksek çizilme direnci
- Her iki tarafta da kilit destek takozu
- Kimyasal temizlik ürünlerine, nem ve zorlu koşullara dayanıklı, antibakteriyel
- Yüksek stok seviyesiyle, hızlı servis hizmeti
- Manyetik kilit ve pratik menteşe ile istenilen yönde kullanılma özelliği
- Tamamen doğal kanat yapısı
- Fuga, profil eklenme işlemlerine müsait kanat yüzeyi
- Diğer mobilya bileşenleri ile eşsiz uyum
- Kolayca montaja hazır hale getirilme
- Farklı renk seçenekleri
- High surface resistance
- More scratch resistance in comparison to traditional doors
- Lock support angle block on both sides
- Antibacterial, resistant to chemical cleaning products, moisture and harsh conditions
- Fast delivery service with high stock capacity
- Usability in any desired direction with the help of magnetic locks and practical hinges
- Completely natural leaf structure
- Leaf surface compatible to profile adding applications
- Unique harmony with other furniture components
- Easy-to-assemble form
- Different color options
