

ANNABURGER

Competence in Agriculture

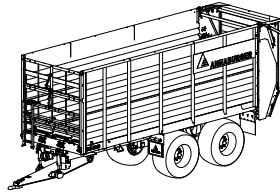

Product overview

ANNABURGER product overview

Silage trailer .03

For transporting grass and maize silage and feeding biogas plants

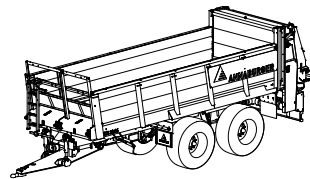

- Volume (m³): 41 - 52
- Performance classes (t): 20 - 33
- Chassis: tandem, tridem
- Unloading time (s) : 100

Universal spreader .04

For spreading of manure, compost and lime efficiently, evenly and in precise doses

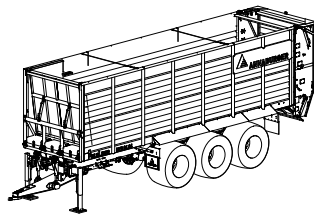

- Volume (m³): 10 - 26
- Performance classes (t): 11 - 34
- Chassis: tandem, tridem
- Moving floor: 2- and 3-sections

FieldLiner .06

Transfer trailer for transferring grass and maize silage at the field edge or silo

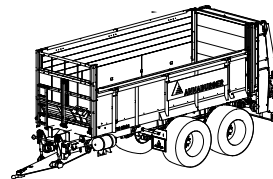

- Volume (m³): 55
- Performance class (t): 31
- Chassis: tridem
- Unloading time (s): 60 - 90

TeleLiner .07

Trailer combination for transporting silage goods and spreading manure, compost and lime

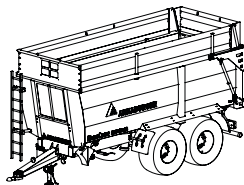

- Volume spreader (m³): 18 - 21
- Volume silage trailer (m³): 30 - 35
- Performance classes (t): 20 - 33
- Chassis: tandem, tridem

Rear tipper .12

Rear tippers have an extremely stable frame and box construction, which ensures a high level of reliability and a long service life

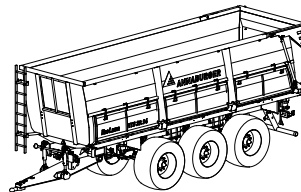

- Volume (m³): 19 - 53
- Performance classes (t): 16 - 33
- Chassis: tandem, tridem

Combi tipper .14

Tipper trailer is suitable for transporting all bulk goods in agriculture - powerful, universal, reliable

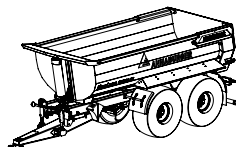

- Volume (m³): 27 - 41
- Performance classes (t): 20 - 33
- Chassis: tandem, tridem

HardLiner .15

The sturdy halfpipe tipper made of Hardox steel for the transport of sand, gravel and demolition waste

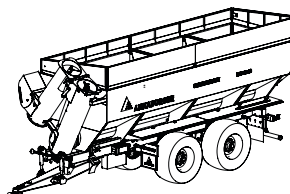

- Volume (m³): 12.5
- Performance classes (t): 22
- Chassis: tandem

Chaser bin .16

Guarantees a high daily output, enabling combine harvesters to work without interruption - suitable for filling seeders and fertilizer spreaders

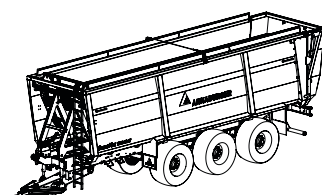

- Volume (m³): 25 - 46
- Performance classes (t): 20 - 34
- Chassis: tandem, tridem

SchubMax .17

Push off trailer for transporting silage goods, rape and grain

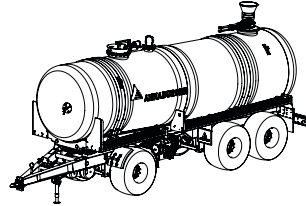

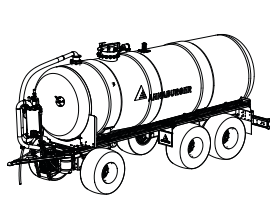

- Volumen (m³): 31 - 53
- Performance classes (t): 22 - 33
- Chassis: tandem, tridem

Tank feeder .27

GRP tank feeder with compressor transports liquid organic or mineral fertilizer to the fields - powerful and cost-efficient

- Volume (m³): 12 - 21
- Performance classes (t): 18 - 24
- Chassis: 2-/3-axle pivot plate

Tank feeder .28

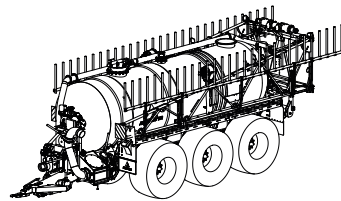

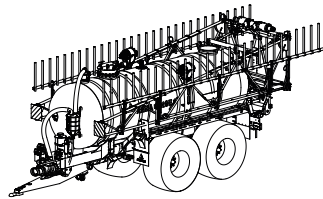

GRP tank feeder with pump is the ideal transport trailer for the slurry chain

- Volume (m³): 21 - 27
- Performance classes (t): 24 - 33
- Chassis: 3-axle pivot plate or dolly

Tank trailer .27

GRP tank trailer with powerful compressor provides a fast filling and equal output quantities.

- Volume (m³): 10 - 27
- Performance classes (t): 21 - 31
- Chassis: tandem, tridem

Tank trailer .28

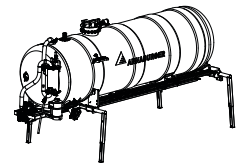

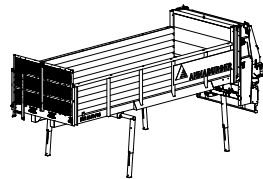

GRP trailer with powerful rotary piston pump system is designed for short filling times and large output quantities

- Volume (m³): 15 - 27
- Performance classes (t): 21 - 34
- Chassis: tandem, tridem

MultiLand Plus .79

8 components in 4 performance classes

- Performance classes (t): 20, 22, 29, 33
- Chassis: tandem, tridem

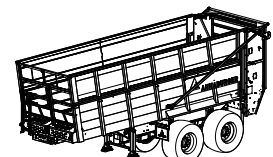

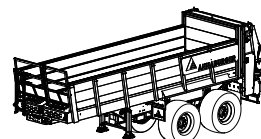

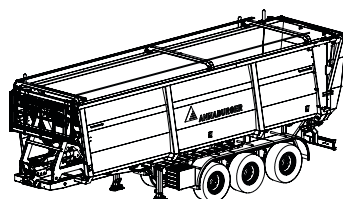

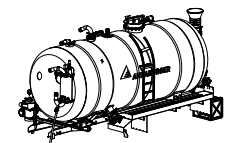

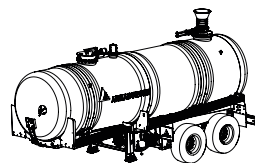

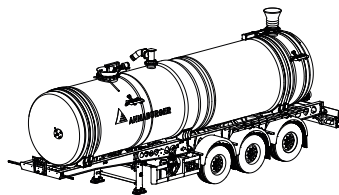

Interchangeable system - superstructures:

- | | |
|----------------------|--------------------------------|
| • Universal spreader | • Tank trailer with pump |
| • Silage trailer | • Tank trailer with compressor |
| • Tipper trailer | • SchubMax |
| • Chaser bin | • TeleLiner |

Truck trailers

From semi-trailers to superstructures - ANNABURGER truck technology

- GRP-Tank semi-trailer
- Truck superstructures (GRP tank, SchubMax)
- SchubMax semi-trailer
- Universal spreader semi-trailer
- Silage semi-trailer
- Forage trailer
