Becoming world-class manufacturer of automotive wiper blade.

CAP Corporation, specializing in manufacturing wiper system since its foundation, has been growing steadily through aggressive product development and cost savings which led to customer satisfaction. Particularly, through aggressive investment on R&D, global sales and marketing, CAP has grown to be the one of the TOP global companies in the wiper business and is paid world wide attention by being selected as one of the cases of outstanding growth. Wiper made in CAP finally ranks No. 1 brand in the consumer evaluation.

GLOBAL NETWORK

CAP corporation was established in 1995 with the aim of producing world-best wiper blades. since its establishment, CAP has been growing steadily on the basis of customer satisfaction and the quality of the products and we make every effort to pursue new technologies and get on the top regarding wiper blade qualities.

 Products : Conventional Wiper Blade

VIEWMAX is a compound of VIEW+MAXIMUM

VIEWMAX is CAP's representative brand name to express our philosophy of providing customers with the best product and clear vision in any weather conditions for the driver's safety with CAP's accumulated know-how and cutting-edge technology.

VIEWMAX Series

QUALITY CERTIFICATE

Quality Objectives

- : To secure unified quality by observing work standards
- : To guarantee the best quality by flawless reliability tests
- : To maintain high quality through continuous training and education

Quality Principle

- : Supply of goods which can guarantee satisfaction for all the customers through perfect quality control
- : Settlement of TQM through active operation of the quality system
- : The best quality in the world secured by the development of new technology

RUBBER MANUFACTURING PROCESS

MANUFACTURING PROCESS

ENGINEERING EQUIPMENT

CONVENTIONAL Wiper Blade

Smooth, streak-free wipe
 Maintains best initial wiping and longer durability
 Multi-layer painting to prevent corrosion

CK
Series

CK Type : Snap Knuckle Type

- Jointed by snap knuckle - spacer (plastic)
- : Quality wiper with reasonable prices
- : Uniform quality of rubber surface

CR
Series

CR Type : Rivet Type

- Jointed by stainless steel rivet
- : Reduced chattering, OEM joint
- : Minimized frictions at joints
- : Improved operational functions strong solid structure using rivet joint
- : Durability for 300,000 cycles (OEM standard)

WIPER BLADE RUBBER

PROCESS	CONTENT
CMB	Incoming of CMB (carbon master batch) Sheet
FMB mixing	FMB (final master batch) Mixing and Spreading
Post Cure	Extrusion of Rubber
	Cooling of FMB Sheet
Chlorination	Reforming of rubber surface (reduction in friction)
Cutting	Cutting process
Graphite Coating	Spreading a solid lubricant on rubber surface (reduction in friction)

“ CAP realizes customer satisfaction with advanced, accumulated technologies and cutting edge equipment”

RUBBER PART

SERIES	MATERIAL	FEATURES	PRICE
CR Series	CR + NR	<ul style="list-style-type: none"> • Excellent weatherability & initial wiping • Durability performance in wiping, high/low temperature 	High
NR Series	Special NR	Optimum performance in wiping, high/low temperature	Intermediate
	NR	Excellent wiping with competitive price	Low
Silicone Series	Silicone Rubber	Excellent water repellent effect & wiping	Special Function

REFILL PART

- Features**
- Economical value by replacing only rubber
 - Easy installation and excellent wiping
 - Compatible with CR, CK type blade

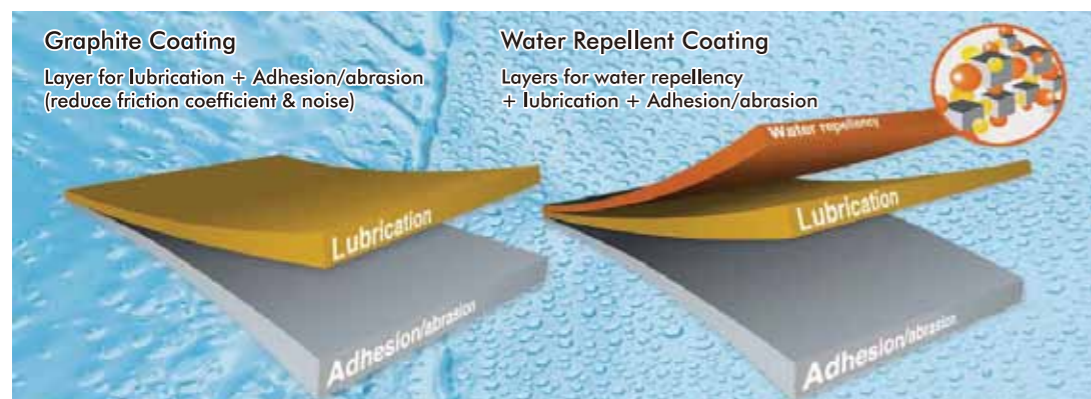

METAL TYPE - Twin Rail

Rubber profile			
Width of rubber body	6(mm)	8(mm)	6(mm)
Blade size	14 ~ 22	24 ~ 28	18, 22, 24

PLASTIC TYPE - Plastic Back

Rubber profile		
Width of rubber body	6(mm)	
Width of plastic	6(mm)	8(mm)
Blade Size	14 ~ 24	14 ~ 28

COATING PART

With Outstanding technology and trusted quality,
CAP is on its way up to the top of wind-shield wiper manufacturer.
We are dreaming of the world best wind-shield wiper manufacturer.
We are willing to take up the challenge for a better future.
