# RBD Palm Olein

CP 10

CP 8

CP 6

RBD Palm Olein is the liquid fraction obtained by the fractionation of palm oil after crystallization at controlled temperatures. It is especially suitable for frying and cooking. The liquid olein is products of fractionation, and they are the major products exported. Main applications of RBD Palm Olein include salad and cooking oils in households, industrial frying fat of instant noodles, potato chips, doughnuts and condensed milk.

# Vegetable Ghee

## GHEE

Vegetable Ghee is produced with pure-palm based oil made solid to replace ghee as an all-purpose cooking fat. It is homogenized and enhanced with flavoring and coloring to mimic the texture and characteristics of butter. Hence, it is free from trans fatty acids.

# Infant Milk Powder

**STAGE 1** **STAGE 2** **STAGE 3**

Essentially, Nutrimex Infant Milk Powder is a substitute for breast milk. Not all women are able to produce breast milk enough to satiate their little ones. Nutrimex Infant Milk Powder is also known as dried milk that has been made by vaporizing the liquid content, leaving behind dry powder. Nutrimex Infant Milk Powder milk is a complex combination of proteins, iron, sugars, fats, and vitamins and is manufactured under highly sterile conditions. Nutrimex Infant Milk Powder comes packed with minerals and is the next best alternative to mother's milk.

# Baking items

OATS

CORN FLOUR

CUSTARD POWDER

Baking is a method of preparing food that uses dry heat, normally in an oven, but can also be done in hot ashes, or on hot stones. The most common baked item is bread but many other types of foods can be cooked using baking method which include oats. It offers considerable expertise in consumer-ready products including porridge, muesli & toasted oats, granola, crisps and many more as it a good source of healthy diet. Same goes with corn flour which is highly nutritional. It is uniquely rich in dietary fibre and vital for a good heart. It is beneficial for optimal bowel functions and can fight against infections.
