WE ARE

Glori ir Ko

manufacturing company specializing in:
various articles made of sheet metal,
powder coating of metal surfaces.

ENGINEERING AND DESIGN

The company "Glori ir Ko" has accumulated 25 years of experience. Our engineers are designing and preparing various articles of sheet metal for a serial production.

PRECISE SHEET METAL PRODUCTION

UAB 'Glori ir Ko' is producing precise parts of sheet metal using CNC Turret Punching, Programmable Folding Machine, CNC Plasma Cutting and other technologies.

IMPECCABLE PAINTING QUALITY

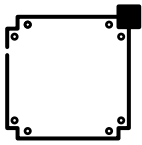

In order to ensure high quality and aesthetic surface, separate parts of the products are coated by metal phosphate solution, this way increasing adhesiveness of paint and preventing from corrosion. Afterwards, the washed parts are polyester powder paint coated.

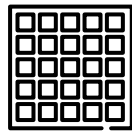

ERP SYSTEM

We have implemented ERP system to ensure production management and accounting quality.

FACILITIES

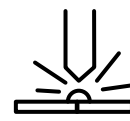

CNC stamping

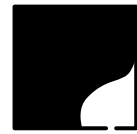

CNC perforation

Riveting

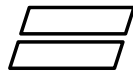

Welding

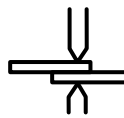

Powder coating

CNC edge bending press

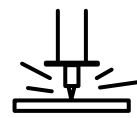

Sheet metal shearing

Contact welding

Bolt welding

CNC plasma cutting

Since

1993

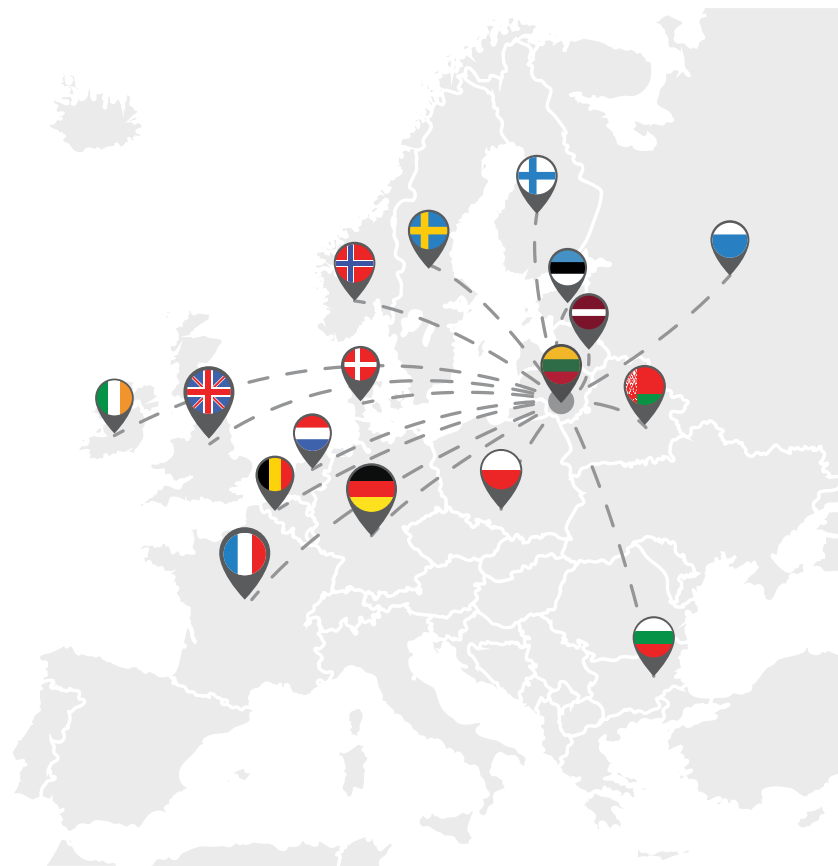

the company manufactured over

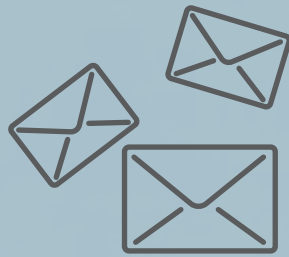

2 499 000+

articles so far.
Many products were
exported to over

16

different countries.

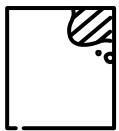

APARTMENT LETTER-BOXES

DURABLE AND HIGH QUALITY

Fine and aesthetic, horizontally joint (multiple) indoors letter-boxes are made of zinc-galvanized sheet metal and polyester powder paint coated. There is a slot for a house number, a title or a surname on most of the letter-boxes.

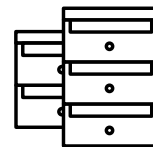

GENERAL INFORMATION

Zinc-galvanized, powder paint coated metal not only prevents a letter-box from corrosion, but adds to it an 'eye-catching' look.

Secure locking mechanism. Two keys are added to each letter-box.

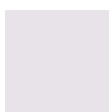

Wide range and versatility in colour and size.

There is designated slot for a house number, a title or a surname on most of the letter-boxes.

Paper flat numbers are complementary issued upon a request.

STANDARD COLOR CODES

RAL 9006

RAL 8017

RAL 7032

RAL 7016

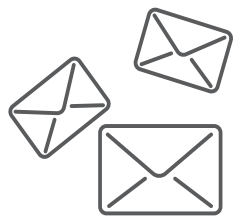

RAL 9005

RAL 9016

Certain quantities of the multiple letter-boxes in silver/grey colour (RAL 9006) are maintained in company's warehouse. The products are painted in different colours upon a request too.

APARTMENT LETTER-BOX PDL91

Suitable for outdoors.
Mail insert flap and enlarged
roof makes it waterproof / rain resistant.

A letter-box is either a wall or a
mount-support / stand attachable. A
range of the company's stands are
listed on **page 11**.

APARTMENT LETTER-BOX STANDS

Standard stands - designed for attachment of the letter-boxes from 1 to 4 grouped units. Every unit may contain from 2 to 10 collective delivery points. A stand may also be used for individual letter-boxes.

The stands are fabricated of black metal. Before painting process, stand's separate parts are coated by special black metal zinc-primer.

Afterwards, a product is polyester powder paint coated.

Multiple letter-boxes' stands are also available in stainless steel.

INDIVIDUAL LETTER BOXES

AESTHETIC AND DURABLE

Wide selection of post boxes will meet even the most exquisite taste. A post box will secure your correspondence and decorate a facade of your house, a fence, a staircase or an office.

The post boxes manufactured by us, ideally suits for both: outdoors and indoors. The post boxes are fabricated of zinc-galvanized sheet metal, then polyester powder paint coated.

FEATURES

Mail insert flap and roof makes a post box waterproof, thus protects your correspondence from a rain.

Secure locking mechanism. Two keys are added to each post box.

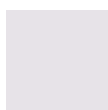

Zinc-galvanized, powder paint coated metal prevents a post box from corrosion.

MOUNTABLE TWO-SIDED LETTER-BOX PD92M

This double-faced letter-box is mountable either into the facade of a building or a fence. The correspondence is delivered from external side and collected from inside.

WEATHERVANES

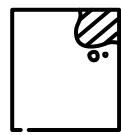

EXCEPTIONAL DECORATION OF A HOUSE

Adopting ancient Baltic and Germanic traditions we produce high quality and exclusive design weathervanes. We offer a wide range of weathervanes' motifs for the one to choose from, thus you may acquire the best match to your surrounding and buildings. The weathervanes are made of steel, then polyester powder paint coated.

FEATURES

ACCESS PANELS

MATCHING YOUR NEEDS

Designation of access panels is to cover plumbing units, electrical units and other types of home installation. They are easily fitting to the walls and ceilings, are durable and reliable. Access panels are made of black or zinc-galvanized metal, also stainless steel. Moreover, we accept individual access panel orders based on special requirements of a customer.

'PUSH-TO-OPEN' SYSTEM

Only a gentle press opens a door. No need for keys or any tools!

ZINC-GALVANIZED METAL

Powder paint coated surface is corrosion resistant.

EASILY REMOVABLE

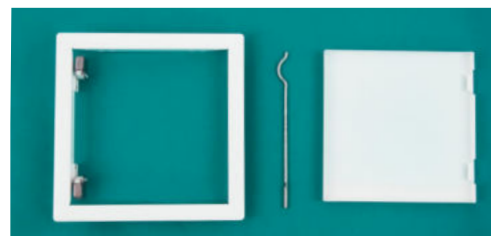

Simply mountable / unmountable access panel doors.

MATT-WHITE COLOUR

Ideal choice for the painted ceilings and walls.

AESTHETIC AND MINIMALISTIC

Matching to various interior styles.

WITH A LOCK

GUARD AGAINST STRANGERS

Protect electrical and / or plumbing units from unauthorized persons or children by installing locking access panels.

TWO KEYS SET

Two keys set is added to each access panel door.

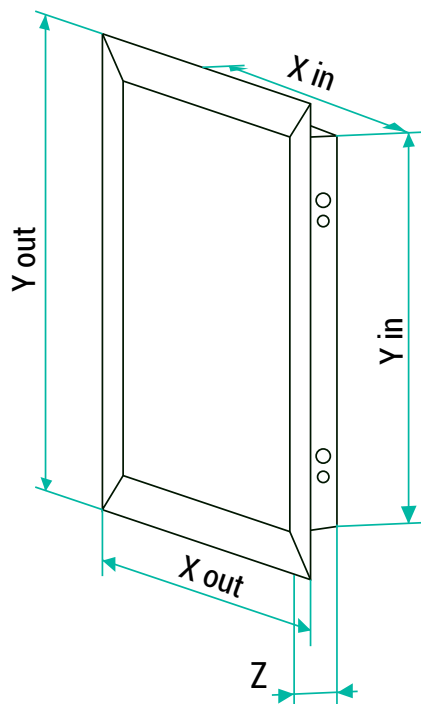

WITHOUT LOCK

SIMPLE OPENING

Simply open the door using a screwdriver or an ordinary key.

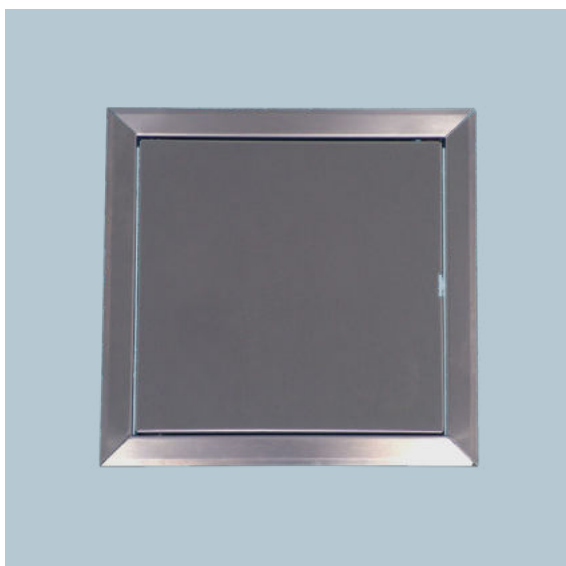

Made of black metal and polyester powder paint coated.

Fire-rated hatches are ceiling or wall mountable. They are used for accessing electrical and / or plumbing units and other types of installation.

Two resistance classes are produced: EI2 30 and EI2 60 in compliance with EN 13501-2, i.e. in case of fire its solidity and heat insulation lasts from 30 to 60 min. respectively. DOP (Declaration of Performance) documents are available.

Fire-rated hatches are fabricated of 1 mm zinc-galvanized sheet steel, then polymeric paint coated in RAL9010. EI2, 30 - 40 mm thick mineral wool plate, EI2 30 - 60 mm thick mineral wool plate and 9 mm thick magnesium silicate plate are used for insulation.

The hatches have a universal locking mechanism installed. Wide range in size is available.

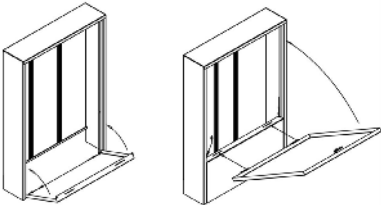

MANIFOLD CABINET

‘USER FRIENDLY’ ACCESS

Manifold cabinets are easy to assemble and install. Zinc-galvanized metal and polyester powder paint coated surface makes the product reliably resistant to negative environmental influence.

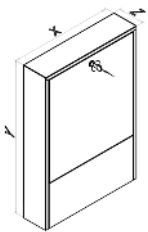

EXTERNAL MANIFOLD CABINET

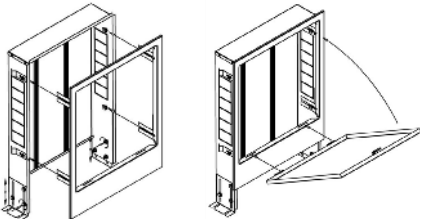

‘User friendly’ access - simply mountable / unmountable door.

FLAT VENTILATION DUCTS

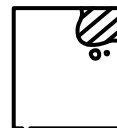

QUICK INSTALLATION

Flat ventilation duct piping is suitable for cold and warm air flow. Such type of ventilation ducts are irreplaceable in buildings with walls too thin for any other option. The ventilation ducts perfectly fits in saunas, they may be installed under a floor, mounted into a drywall or directing hot air flow coming out of a fireplace.

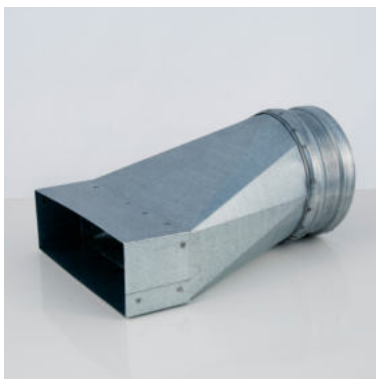

FEATURES

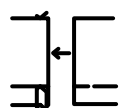

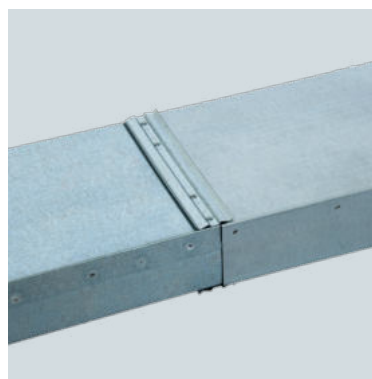

Ideally suits for either cold or hot air flow.

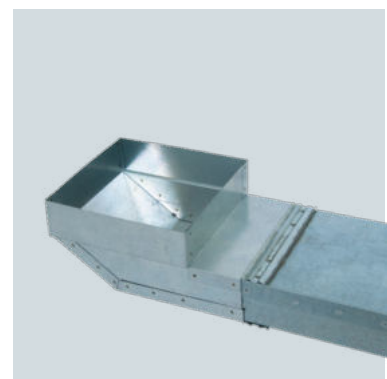

Zinc-galvanized metal is corrosion resistant.

150X50MM Standard dimension

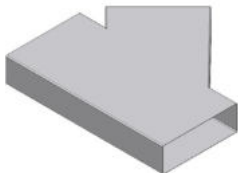

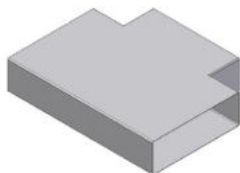

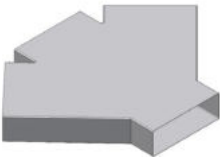

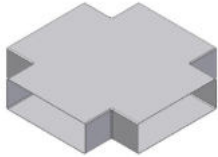

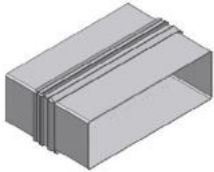

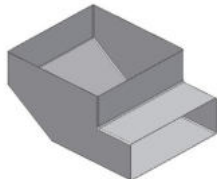

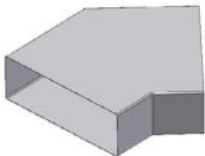

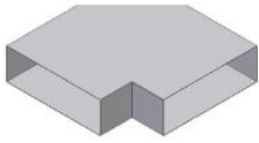

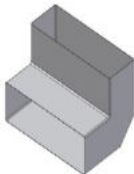

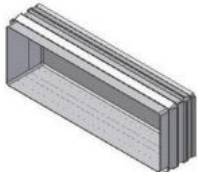

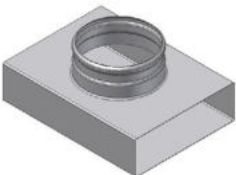

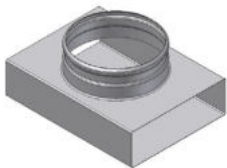

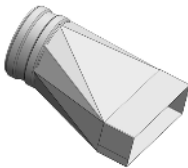

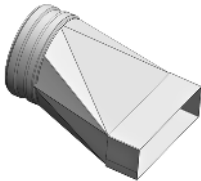

Quick and 'user-friendly' joining.
