

Experience Goldair Cargo Service

Goldair Cargo operates in the freight forwarding and logistics sector, offering high-level added value services, thanks to an extensive network of associates who ensure speedy and frequent dispatches, as well as reliable response to our customer needs. The departments of road, air and sea freights cover every type of delivery, thus making the company a strong player in the sector.

One of the strongest advantages of Goldair Cargo, which has been typical of its services, throughout the years, is the steady and high quality level of customer services and transit time, even during stressful times.

The company's organization and operation guarantees:

- Immediate response
- The coverage of broad range of needs
- Cross trade freight
- Update on the shipment's progress
- Competitive freight price
- Provision of customs services
- Payment flexibility
- Transportation of sensitive cargoes
- Freight insurance
