by Edward van Vliet

JEE-O[®] unique bathrooms

Together with the well-known Dutch interior designer Edward van Vliet, JEE-O has designed a stylish bathroom collection: the bloom series. Like all designs of the top designer, the refined collection was inspired by nature and geometry. The bloom series was on display for the first time during the Salone del Mobile in Milan.

Van Vliet's love of nature and geometrical shapes is reflected in the smooth transition from facet to round shapes in the design of the baths and basins, and in the hexagonal-shaped faucet heads and handles. A sunflower served as inspiration for the shower head.

The timeless bloom collection includes all the elements for optimum bathroom enjoyment: a bath, top mounted and freestanding basins, a ceiling shower and wall shower, and accessories. Designed with care and vision, they are all eye-catchers with international allure to suit any bathroom.

"I think it is important to have a bathroom where everything is coordinated", says Edward Van Vliet "The bath and the shower must be generous. It's all about creating worlds. Apart from the fact that everything has to function properly, my aim is to enable people to fully embrace the world of water."
