APPLICATION:

- Soft, Strong natural feeling.
- Suitable for all packing units (manual or automatic).
- Resistance 1 to 3 kg.
- Wide Colour Range.
- Packaging In sleeves, rolls or loose.
- Wide range of knitted meshes (Rhombus, Minimesh, L-Z, KARO).
- High Quality Control.

TUBULAR NETTING

We offer a wide range of complete packaging solutions for the packaging of fruits, dried fruits, confectionery, nuts and vegetables.

Tubular nets are a cost effective and visually attractive packaging solution, offering effective containment and allowing the visibility of the products packed, therefore reducing the risk of packaging being damaged when opened.

Our nets are manufactured using modern plant equipment, machinery and technology and our products are certified with the ISO 9001. The quality

of our nets conforms with the European standards relating to plastics in contact with food. They are non-toxic and leave no harmful chemical traces in food products.

Reflective Safety Net

The new patented **Reflective Safety Net** of KARATZIS GROUP is clearly visible as it comprises retro reflective tapes, with visibility power of 800 cpl.

Warning lamps and extra road signs are no longer necessary. Simple and light pillars, instead of the common heavy pillars, are used for its placement and steadiness.

Unlike heavy extruded nets, the **Reflective Safety Net** weights only 117 gr/m. It is easy to roll back, wash and re-use.
