DEVELOPMENT

THE L.LOCKER GROUP annually invests to development and constant updating of production. In 2013 Company has kicked off the new unique project for producing boot liners DUAL Anti-Slip, which has no analogue today.

The capabilities of the newest extrusion lines and applying special production technologies allowed us to connect two absolutely different materials in its texture – antisliding material and Polyethylene (PE).

ADVANTAGES OF THE BOOT LINER DUAL ANTI-SLIP

MATERIAL.

Top anti-slip layer of the mat – advanced, modern, ecologically pure polymer material, which prevents any sliding of cargo and the free movement of dirt in the trunk of the vehicle.

GEOMETRY.

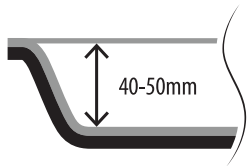

The Boot Liner Dual Anti-Slip is designed individually for the brand and model of vehicle. Applying of three-dimensional technology in design and creating the mat provides its ideal laying in the trunk of a vehicle.

The bottom layer - high-pressure Polyethylene - modern high quality material, which provides durability, stability of any given shape, holds high board and allows to remove dirty mat conveniently from the trunk.

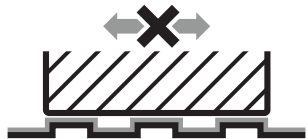

ADVANTAGES OF THE BOOT LINER DUAL ANTI-SLIP

THE BOOT LINER DUAL ANTI-SLIP HAS BEEN CREATED FOR EACH BRAND SPECIALLY. WE HAVE MORE THAN 450 MODELS IN ITS RANGE AT THE MOMENT.

THE BOARD.

The Boot Liner Dual Anti-Slip has 40-50 mm high board, which is the best for protection of lateral surface of the trunk internal cover from dirt and allows to remove dirty mat from the vehicle.

THE DRAWING.

The Boot Liner Dual Anti-Slip has the specially created drawing for decreasing of cargo sliding and other goods in trunk. Also it has an optimal depth, which strictly prevents the free movement of any liquid and dirt in the vehicle's trunk.

COLOR.

The bottom layer has black color as always. The color spectrum of the top anti-slip layer has few kinds. Attractive price, uniqueness, high-quality and advantages of such products satisfies the most exacting requirements of the Customer with certainly benefit for the Buyer and Seller.

THE ENVIRONMENTAL PROPERTIES.

The Boot Liner Dual Anti-Slip is friendly to environment. It is made of two modern, ecologically clean materials of the highest quality, has hypoallergenic properties.

GENERAL PROPERTIES

durability, temperature resistance, stability to extra-low (- 50C) and extra-high (+ 80 C) temperature, has odorless.

CAR FLOOR LINERS

L.LOCKER produces floor liners, made with three-dimensional technologies. The liners have no cuts, ideal fitting and protection against dirt. This kind of production gains higher popularity.

EACH DRIVER'S MAT IN THE SET HAS PRE-INSTALLED FIXINGS WHICH PROVIDES SAFETY WHILE CAR RUNNING.

SHAPE AND BOARD

The mats have an optimal length and shape which completely protects front and rear car salon from dirt.

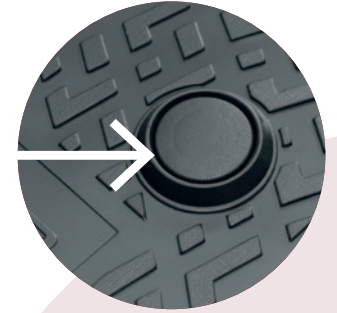

The mat's board has the height 40 mm, protects lateral surface of internal car trim, allows taking out dirty mat from the car.

Car floor mats have an ideal geometry, absolutely fit to floor and lateral surface of internal car trim.

CROSSPIECE

The rear right mat always has the crosspiece to protect the car tunnel and lateral surface from dirt. The crosspiece is designed using three-dimensional technology, which provides shape's preserve and improves its functionality.

MAT'S DRAWING

Specially designed for reducing of the Driver's feet. The drawing has the optimal depth, that interferes free movement of liquid and dirt on mat's surface. At the same time the drawing doesn't make any inconvenience while car driving.

FIXING

The Driver's mat with pre-installed fixings puts to regular places onto floor of the car. New technology of the fixing system is watertight, doesn't allow the water and dirt to leak inside onto car floor.

BOOT LINERS

THE L.LOCKER GROUP makes boot liners especially for each model of vehicle. Applying the three-dimensional technologies in engineering and manufacturing provides its ideal fitting.

BOOT LINERS' ADVANTAGES

1 The liner's drawing was designed for slip reduction of cargo and objects in the trunk and interferes to free movement of liquid and dirt on liner's surface;

4 Have board with an optimal height up to 50 mm. The height is the best protection from dirt on the lateral surfaces of the vehicle;

2 Have the raised wear resistance that means the increased term of using;

5 Preserve the shape of a liner from - 80 oC till + 80 oC.

3 Have no smell, Allergy-free, environmental friendly;

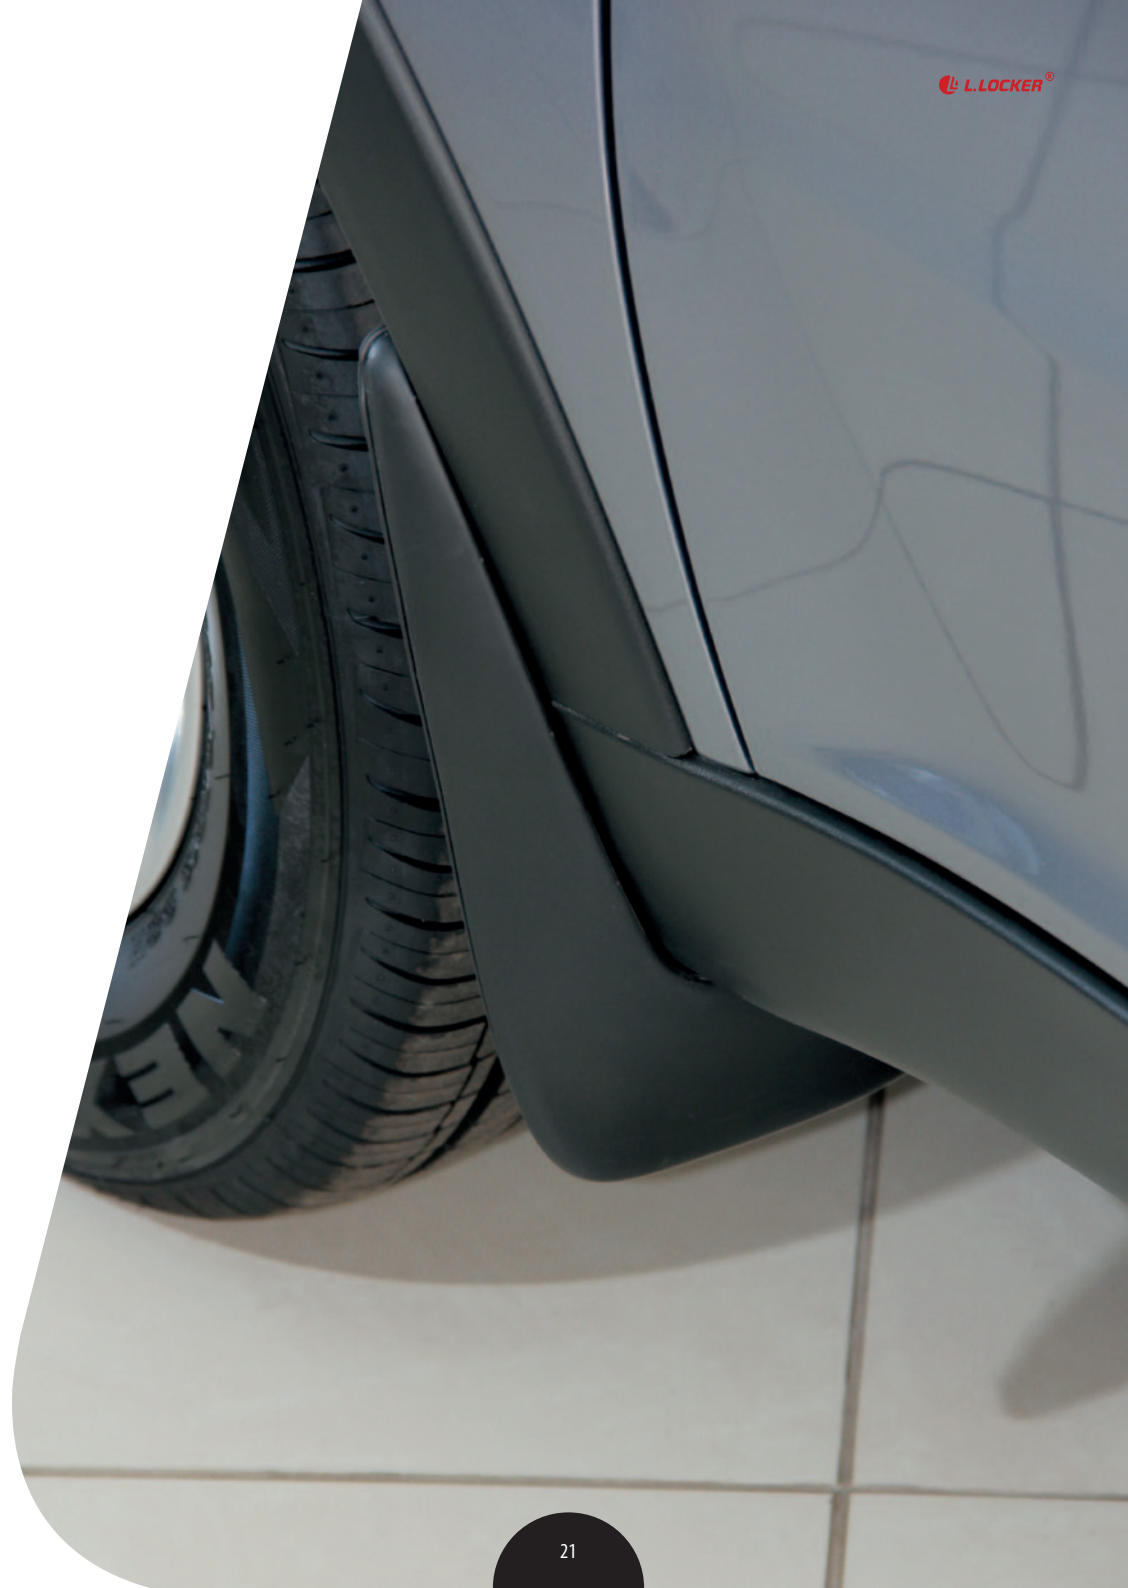

MUDGUARDS

THE L.LOCKER GROUP produces model mudguards for vehicles. Mudguards have an ideal fitting for the corresponding model of the vehicle. Design of this product accentuates grace of vehicle's forms, making them the logical end of wheel arch. Mudguards completely meet requirements to the regular factory to mudguards, having the same ways of installation and fixture places. The set of mudguards always has screw-fixings.

MUDGUARDS' ADVANTAGES

- 1 Form an aerodynamic stream of air to reduce formation of the mud drizzle settling on the car as much as possible;
- 2 Set of rear mudguards protects not only your vehicle, but also provides protection of windshield of the car going behind from the dirt, flying from under wheels;
- 3 Set of front mudguards protects the car bottom from stones and sand in summer, and from reagents in winter;
- 4 Effectively protect the car bottom from dirt and water;
- 5 Save the form stability from - 80 oC till + 80 oC;
- 6 Have the increased durability and wear resistance;
- 7 Have the set of screw-fixings for accuracy installation.
