SINCE 1995

OUR HISTORY

Atlantis is our brand.

The figures say it all. The hundred million

hats and caps sold throughout the world during our 20 years of activity are indubitably an exceptional result, but our greatest source of pride is the confidence and trust of our thousands and thousands of customers.

broidery, 3D embroidery, printing, applications) starting from as few as 288 pieces. Anyone looking for a cap as a customized vehicle for their image or to create a fashion collection for their company will find the perfect partner in **MASTER ITALIA S.p.A.**, thanks to the **quality of the materials and processing**, creativity of the designs and prompt consultancy for all types of request.

TRACEABILITY

The voluntary subscription to the certification scheme of **TRACEABILITY** of its products represents, for Master Italia S.p.a., a concrete way to guarantee and prove to the consumers, the transparency of its own **ATLANTIS** trademark and to encourage purchasing awareness. A “traced” product is a “clear product” with a very specific identity and a certain origin.

Master Italia S.p.A.'s purpose is therefore to be utterly frank concerning the information linked to the product regarding:

- the places of manufacturing of the main stages of the productive process;
- the main features of the product: name, production number, year, name of the importer and website.

The certification of **TRACEABILITY**, issued and checked by the Chamber of Commerce, guarantees to the consumer a “clean passport” of the product, whose story, reported on a dedicated label, increases its perceived value in terms of quality, safety and ethicality.

AEO CERTIFICATION

AEO Customs certification guarantees the **reliability** and **security** of Atlantis as part of the international logistics chain.

In the case of imported goods, this certification **simplifies customs procedures** and **reduces controls**.

This speeds up **customs clearance** and **deliveries** and makes supplies more reliable.

OUR BRAND

In designing the brand logo, the idea was to create an image both easily recognisable and symbolic of the company's core business, characteristic style and innovation and values. The design represents a stylised cap and the symbol of infinity. Infinity expresses the unlimited potential to choose and create offered by our products. And of course, the cap is our brand, what we do, the absolute protagonist of Atlantis.

FABRIC TECHNOLOGIES WE USE

GORE-TEX®

The GORE-TEX® membrane is an extremely thin layer of expanded polyte trafluoroethylene (ePTFE). It has over 9 billion pores per square inch. These pores make the GORE-TEX® fabric waterproof, windproof and brethable.

WINDSTOPPER®

Products made with GORE® WINDSTOPPER® fabrics are totally windproof and deliver maximum breathability to keep you comfortable in cool and windy weather conditions.

THINSULATE 3M™

3M™ THINSULATE™ insulation fabric is used to keep the temperature inside constant when it is cold outside. The microfibrs in the Thinsulate treatment trap air molecules between the wearer and the outside.

COOLMAX®

COOLMAX® fabric is a performance fabric engineered with special technology to wick moisture and accelerate drying. Engineered COOLMAX® fabric helps keep things cool, comfortable and dry.

Q MAX®

Breathable fabric used for the sweatband of high performance sport caps for maximum comfort.

OEKO-TEX®

The STANDARD 100 by OEKO-TEX® is a worldwide consistent, independent testing and certification system for raw, semi-finished, and finished textile products at all processing levels, as well as accessory materials used.
