MAUSER 18 STAINLESS

The all-weather tool

Rain, hail, storm, snow - for others this means bad weather, for the Mauser 18 Stainless this is its comfort zone. Thanks to its receiver and barrel made of stainless steel and the ultra robust synthetic stock it achieves results while others stay inside.

Technical Data

Barrel surface and receiver: Stainless steel | barrel length: STD 56 cm / MAG 62 cm | diameter at muzzle: 17 mm | thread M15x1 | thread 5/8x24 with 6,5 Creedmoor and 6,5 PRC | total length: STD 106 cm / MAG 112 cm | total weight approx. 3.1 kg

MAUSER 18 WALDJAGD

Short. Compact. Uncompromising.

This is the new Mauser 18 Waldjagd. "Waldjagd" is German and means "hunting in the woods". This rifle is simply made for hunting in dense conditions; from stalking, driven hunting up to sitting on narrow posts.

Technical Data

Barrel: blued | Barrel-length: 51 cm (20 inch) | Muzzle diameter: 19 mm (0.75 inch) | Muzzle thread: M17x1 | Total length: 101 cm (39.76 inch) | Weight: 3.1 kg (6.8 lbs)

MAUSER ACCESSORIES

8.5x55 Blaser

Full power for short barrels

From short barrels this caliber unfolds its full potential and exploits all the advantages of its ballistic values. An ideal caliber in times when customer demand for compact rifles with short barrels is growing. This is because the symbiosis of 8.5 mm projectile diameter and bullets weighing 11.7 g or 10.4 g, together with the high bullet velocity, ensures not only an extended ballistic curve, but also the best possible effect in the target. This makes the 8.5x55 Blaser caliber ideal for a wide range of game, from roe deer in native hunting grounds to antelope in the African savannah.

Now available in the models **Mauser 18 Waldjagd** and **Mauser 12 Big Max**.

8.5x55 BLASER
