

RIFLES 2019

DAS ORIGINAL

NO DOUBT...

Imagine living on a deserted island for a year, where winters reigned supreme, filled with snow, ice and freezing cold. Burning summers would give way to monsoon rainfall, turning the dusty landscape into a muddy morass. The only game to hunt is tough and dangerous. You have one rifle and only 100 rounds of ammunition with which to survive. No cleaning kit, no tools, nothing. What rifle would you choose?

We've asked this question of many hunters over the past few months, and the most common answer, by a long way, is "MAUSER 98". Hardly surprising, considering the 98 has earned its name as the ultimate rifle in terms of reliability under any circumstances. There's a good reason the MAUSER 98 has been the blueprint for so many rifle designs around the world, though none has come close to the original.

For us at Mauser, the Model 98 represents far more than simply a rifle. It is an inspiration in the way we think, build and enhance our guns today. We build rifles that are hunting tools with no bells and whistles which are second-to-none when it comes to function and reliability. When it really matters, there's no doubt that you can only count on...

...THE ORIGINAL.

MAUSER

Born from genius, forged by
gigantic hammers, built for
eternity. The story that started
in 1898 is stronger than ever.
MAUSER remains true to its
genesis and continues
to make the most reliable
firearms in the world.

Model 98

The time has come for the original to be manufactured at home: at MAUSER. As with no other rifle in our history, the Model 98 action defines the core value of the MAUSER brand and fires our mission to build guns

that never let their owners down. The entirely new Model 98 line is not only a unique combination of technology and craftsmanship, but a true commitment to our roots as the birth-place of the world's most reliable rifles.

Model 98 STANDARD

After a comprehensive study of the original drawings and with developments of 21st century gunmaking techniques, we knew there could only be one outcome: the best. From the start it was about optimization rather than improvement of the best bolt-action rifle ever designed. The best materials, the unbeatable preci-

sion of high-end modern manufacturing, state-of-the-art surface technology, masterful assembly and the final touches by our expert gunsmiths – this is what sets the rifle apart. After two years of hard, intense work, the new MAUSER 98 STANDARD represents a milestone in custom rifle making. The receiver is

MAUSER 98

Model 98 DIPLOMAT
The benchmark for custom hunting rifles. Every detail is 100% Mauser and thanks to the grade 7 wood, this is the cream of the crop.

Model 98 EXPERT
A tasteful entry into the world of the Model 98, with a classic design perfected. Every rifle is a unique piece.

milled and drilled from a single massive forged block of specially formulated steel; the barrel is cold-hammer forged; the trigger is optimized and has outstanding characteristics; the steel surfaces have been plasma-nitrided; there are front sling-swivel studs as well as iron sights mounted with barrel rings and to top it

all off, there is a three-position horizontal style safety with ultra-smooth function. Every rifle is handcrafted and fitted to perfection. How cycling the bolt feels proves we have achieved our goal. We have successfully and rightfully brought this legend back into production.

Model 98 MAGNUM

Africa's legendary big-game hunters knew what to trust: the mighty double or, with its larger capacity, the magazine-fed indestructible and reliable Magnum MAUSER action. Staying true to this tradition, the new Model 98 Magnum shows there is no challenge too great for this rifle. Based on a double square bridge action made from a full block of steel, this

big-game classic is delivered to the same exacting specification as the MAUSER 98 STANDARD. Two massive recoil bars and a slightly longer stock are incorporated to deal with the three calibres on offer: .375 H&H Magnum, .416 Rigby or .450 Rigby. A big-game hunter can rest assured that with the Model 98 MAGNUM in his hand, he'll have the uncompromising

MAUSER 98

Model 98 MAGNUM
When the top of the food
chain needs to be decided,
this rifle is your
ultimate partner.

firepower of five (.375) or four (.416 or .450) cartridges in the magazine to tackle the jobs a double rifle can't. Thanks to the legendary long extractor, the controlled feed and the fantastic bolt cycle, this power is delivered with speed and absolute reliability when your life may truly depend upon it.

Not only will a MAUSER 98 MAGNUM hunter enjoy the final pull of the trigger with this unreserved classic but the journey to get there will become as much a part of the story. Who wouldn't want to carry one of these hefty brutes in the African bush?

**YOUR HUNTING,
YOUR RIFLE**

NEW

NO COMPROMISE!

The new Mauser 18 condenses hunting to its fundamental form: pure, no-frills workmanship. It's not merely a hunting rifle, but something which Mauser has always symbolized: the ultimate gun for all men at all times. The Mauser 18 is more than just another component; it is the whole package. It brings together all the essentials for hunting in the best possible way and does not include anything that isn't necessary in the field. The result is a genuine tool for genuine hunters with a sensational price-performance ratio. In other words: Mauser brings you:
"The everymans rifle for every situation!"

Uncompromising
durability

Model 18

NEW

The brand new Model 18 embodies „Made in Germany“ with the soul of a Mauser: Ultra-sturdy construction made of the best materials, concentrating on the essentials for its purpose: Solid three-lug locking system, cold-hammered barrel, and a silently operating 3-position trigger lug safety system. In addition, the Mauser 18 shines out with its adjustable, crisp direct trigger mechanism and its removable 5-shot

magazine. Unique in its price class is the ultra-robust synthetic stock, which comes with two unbeatable trump cards: Firstly, the most modern „1+1 C“ technology integrated soft-inlays in the pistol grip and the forearm, they guarantee you the perfect grip in every situation. Secondly, the butt plate which can be removed without the use of tools. In this way, you can to gain access a useful storage space in the stock.

Wilderness hunting inside
the Arctic Circle, far
north in Swedish Lapland.
No roads, no civilization,
no plan B. Here you will
need all of your skills,
determination and the most
reliable hunting equipment.

MAUSER

Model 12

More than ready to hunt.
Waterproof clothing,
well broken-in boots,
a birch bark moose call
and the indomitable
Mauser Model 12.

HARD SHELL, HARD CORE

The Model 12 has everything MAUSER represents: tough use in any condition. With a proven full steel construction, cleverly designed cold-hammer forged barrel made of a specially formulated steel, direct lock-up of the bolt inside the barrel with six massive lugs, detachable high capacity magazine and

a safety concept that showcases what the MAUSER philosophy has been for more than a century. Time doesn't stand still, however and so the Model 12 optionally offers a precisely designed and produced manual cocking system that combines maximum safety and the easy and well known MAUSER-style operation.

Optional
Manual cocking
safety system

All these unquestionable advantages prove their truly uncompromising practicality especially when unexpected circumstances force man and material to the limit and when compromise or defeat

is not an option. It is then that a real hunting rifle must do its duty, when the last reserves are being used to conclude the adventure that was started hours or even days before.

After seven hours of walking and stalking we are within calling range of a big bull. We have to seal the deal and drop him – we need meat for the camp...

Model 12 TRAIL

Compact reassurance. Thanks to the feedback from skilled dog handlers and beaters during the development phase, there is no doubt that the cleverly designed TRAIL model is best suited to active hunting. The 47cm barrel has a three-dot driven hunting sight, and the rifle has an overall length of 97,5 cm.

The black Ilaflon coating on every steel part guarantees the ultimate rust protection, while the sling-swivel at the muzzle has 360 degree rotation. There's a practical extra sling-swivel stud on the side of the stock and the Soft-Touch polymer stock in blaze-orange completes this reliable professional tool.

MAUSER 12

Model 12 TRAIL
Every metre covered in this
thick brush or on a tricky
blood trail is a testimony
that this is no hobby, it is
a passion: just like the
Model 12 TRAIL.

Model 12 EXTREME
Rain, snow, dust or dirt:
it doesn't matter how tough
things get, this work-horse
of a rifle is tougher.

Model 12 EXTREME

The toughest all-rounder on the market, the EXTREME, has an ultra-robust build and an almost indestructible polymer stock. For perfect control in any situation, MAUSER has included a Soft-Touch coating as well as an oversized bolt-knob. The EXTREME is available in

all standard and magnum calibres of the MAUSER 12 portfolio, making this rifle the only choice if you have to deal with hardcore weather or are going on a challenging international hunt in the back of beyond where technical issues are not a possibility.

A call brings the bull in, he senses something is wrong and runs back towards the forest. Suddenly he stops, almost broadside, 200m away. With the Model 12 MAX, there's no doubt...

Model 12 MAX

High stability and ruggedness are combined with cleverly designed ergonomics: the MAUSER 12 MAX masters both with excellence. The carefully designed thumbhole stock ensures perfect trigger control, while the palm swell on both sides

of the stock allows for right or left-handed natural shooting. The laminated beechwood stock is sealed with a special finish to offer maximum weather resistance and enduring reliability for the accurate shot in any situation.

MAUSER 12

Model 12 BLACK IMPACT
The best shot can often be the result of a long walk. The IMPACT is second-to-none for combining a compact hunting platform but with match accuracy.

Model 12 MAX

The new flagship rifle in the M12 line and the most ergonomic MAUSER in production. The result? Maximum performance and reliability for static shots leading to optimal results.

Model 12 BLACK IMPACT

The BLACK IMPACT redefines the MAUSER 12 as a top-level long-range hunting rifle. Not only does the design focus on long-distance shooting, it also addresses the arduous, often steep stalk into position that is needed in a real world scenario. A

unique design offering compact dimensions, light weight and ultimate accuracy with perfect balance. The silver Ilaflon coating protects every steel part from corrosion and the cone shaped bolt handle provides smooth reloading, even when prone.

Model 12 PURE

“Back to its roots” explains the entirely new design of the Model 12 PURE. A century ago, MAUSER 98 rifles with sporterised high grade stocks were the choice of professionals who desired reliability in a stylish package. What could be better than fusing an ultra-reliable infantry action with a classic hunting stock?

This turned a functional edgy military firearm into arguably the most awesome stalking rifle of all time! The Model 12 PURE picks up this success story and is a true Classic Sporter that will excite every real hunter without breaking the bank.

This is how MAUSER presents modern day affordable luxury that works.

MAUSER 12

Model 12 PURE
The name says it all:
from butt cap to muzzle,
this rifle makes a clear
statement: MAUSER at its
very purest with DNA
reaching back to 1898!

Model 12 EXPERT
A classic outline and the best
materials make the heart and soul
of this indestructible rifle. Like
hunting, the EXPERT doesn't follow
fashion, but embodies a living
tradition.

Model 12 EXPERT

The “noble sister” of the PURE is delivered with the same Sporter stock with a straight comb, long pistol grip, German cheekpiece and the characteristic MAUSER trapezoid right over the trigger. It is the specially selected grade-5 wood and ebony tip at the fore-end that lift this

rifle to the next level, leaving no doubt that a gun with such classic form and such excellent function can only carry one name on the receiver: MAUSER. This is not just a special occasion rifle, this is the rifle you will love to look at and hunt with every time it leaves the cabinet.

MAUSER

This is your hunt. This is
your life. Make it happen!
Hunting is so much more than
simply a hobby, just like your
gun is so much more than just
a bolt-action rifle.

Model 03

MAUSER 03

The camp is made, the
firewood is ready. The
stalk will provide dinner
under wild skies.

FOR EVERY DAY AND EVERY CASE

The MAUSER 03 is the premium modular bolt-action rifle for any game, on any hunt, whether home or abroad. A quick and easy change of barrel, bolt head and magazine can alter the Model 03 platform from a delicate roe deer set up to a fast pointing driven hunt rifle then to the

most powerful big-game felling brute. No matter what configuration is put to the shoulder, any MAUSER 03 hunter can count on two facts: 100% return-to-zero accuracy and uncompromising performance in any circumstance. Thanks to the wide range of available

calibres, as well as a multitude of barrel lengths and tapers, the Model 03 can be configured to suit any hunter's needs. Moreover, every combination provides state-of-the-art action, manual cocking safety, a versatile set trigger and a metal detachable magazine – all in the timeless

design of a true MAUSER. The Model 03 represents the best of modern innovation but with genuine recognition of MAUSER's past continuing in the legacy of reliability, tough form and devastating function. This is a rifle every serious hunter should take into consideration.

Model 03 EXPERT
Imperious technology meets
classical beauty. EXPERT: the
supreme choice for those who
need the very best in modern
bolt rifles.

Model 03 PURE

The brand-new model is in the upper echelons of rifles MAUSER has produced, offering two benefits: technicality and beauty. The PURE offers the latest in technology, with the full line of configurations available, including a set trigger, as well as the MagSafe magazine lock. A brand-new design that is true to

the unique beauty of MAUSER rifles offers a German cheekpiece, a distinguished line around the magazine frame and a fluid outline towards the fore-end tip. These features give this MAUSER 03 model a dynamic feel of a true MAUSER sporting rifle that excites in every hunting situation .

MAUSER 03

Model 03 PURE

Innovation and accuracy
in its most genuine form
from MAUSER. The pure joy
of hunting.

Model 03 EXPERT

Black plasma-nitrided steel parts and specially selected grade 5 Turkish walnut distinguish the EXPERT: this is an elegant classic formed hunting rifle for the gentleman who expects technology in a class of its own. Under the noble

exterior this is one of the most modular and reliable bolt-actions in the world, with all the technical must-haves that a connoisseur would expect from a safe, accurate and versatile 21st century premium sporting rifle.

Model 03 EXTREME

When you are hunting to the limits, this MAUSER 03 is the rifle of choice. Made from almost indestructible polymer, even the heaviest of impacts will only scratch the stock – but won't bring it down. This protection is tailor-made for the

EXTREME, and those who seek adventure can take this rifle literally anywhere. Whether sub-zero arctic tundra to high altitude low oxygen mountain hunts, this Model 03 configuration is about as reliable as they come.

MAUSER 03

Model 03 EXTREME
Modular, for the toughest
travelling rifle.
Professional and international
hunters in particular trust
in the ruggedness of this
premium rifle.

Model 03 TRAIL
The short answer to long hunts.
Since its launch, the TRAIL has
been the practical and
safe choice of ambitious
dog handlers and beaters.

Model 03 TRAIL

Hunters that carry a MAUSER 03 TRAIL are the ones that actually do the hunting, not just talking, and with a rifle they can count on. The facts: rugged manual cocking safety that is easy to use with gloves; lockable five round magazine; 360

degree rotating sling swivel at the muzzle; additional sling swivel stud to the side of the stock; muzzle safe protection system, and last, but not least, a polymer stock with orange inlays that offer perfect grip. This is 99 cm of tool, not talk.

MAUSER ACCESSORIES

THE REAL LOCK, STOCK AND BARREL

1) MAUSER Moderator: Rugged and efficient. Made by the pros from A-TEC it lowers noise, recoil and barrel jump to a level that makes shooting a pleasure.

2) MAUSER Gun Slings: Your choice between the black EXTREME or the leather-sling DE LUXE.

3) MAUSER Gun Case long: For an assembled Model 03, 12 or 98.

4) MAUSER Cordura Soft Bag: With additional pocket and combination lock.

5) MAUSER Hexa-Lock: Available for Model 12 or Model 98 Std. and with 1"- or 30mm-rings it is the stable and 100% "back to zero" connection between rifle and scope.

6) MAUSER Double Square Mount: The elegant and stable scope mount for the MAUSER 03 and all types of scopes.
