Art. N700

Art. N100

Art. N90

 Sollevatore ideale per la movimentazione, lo smontaggio e rimontaggio di ruote per veicoli. I carrelli sono dotati di ruote girevoli, rulli regolabili per un supporto ottimale della ruota, telaio con baricentro ridotto per la massima stabilità, comando oleodinamico a pedale/mano per i modelli N100, N700 e comando manuale pneumatico per il modello N90.

 Lift perfect for handling, removing and reinstalling vehicle wheels. The trolleys are equipped with swivel wheels, adjustable rollers to give optimum support to the wheel, frame with low center of gravity for maximum stability. Models N100, N 700 have pedal/hand operated hydraulic controls and model N90 has manual pneumatic control.

 Appareil de levage idéal pour manutentionner, démonter et remonter les roues des véhicules. Les chariots sont équipés de roulettes pivotantes, de rouleaux réglables pour supporter la roue d'une façon optimale, d'un châssis au centre de gravité réduit pour le maximum de stabilité, commande hydraulique par pédale/manuelle pour les modèles N100, N700 et d'une commande manuelle pneumatique pour le modèle N90.

 Idealer Heber für das Handhaben, Demontieren und Montieren von Rädern für Fahrzeuge. Ausgestattet sind die Wagen mit Drehrädern, verstellbaren Rollen für eine optimale Radauflage, Rahmen mit reduziertem Schwerpunkt für höchste Stabilität, Hydraulikantrieb mit Pedal/Handsteuerung bei den Modellen N100, N700 und manueller Druckluftantrieb bei Model N90.
