NOKIAN HAKKAPELIITTA TRUCK E2

**DRIVE AXLE TIRE FOR DEMANDING WINTER
CONDITIONS ON ROUGH ROADS**

THE BEAUTY IN EXTREME

Snow plowing and timber transport on rough winter roads push tires to their limits. The **Nokian Hakkapeliitta Truck E2** traction winter tires bring comfort and confidence for safe working in extreme, minimizing the need for chains. Carrying on the Hakkapeliitta legacy, they offer the next generation of winter grip, longevity, durability and a low rolling resistance.

SAFETY AND COMFORT THROUGHOUT THE YEAR

From the first autumn frost to the last snow of spring – with its deep, open tread, peg siping and connected-block tread design, Nokian Hakkapeliitta Truck E2 winter tire has the next level snow and ice grip that lasts its entire service life.

LOW NOISE, LOW ROLLING RESISTANCE

The modern working environment and legislation call for low noise and rolling resistance from a tire. The Nokian Hakkapeliitta Truck E2 winter tire is ahead of the demands with its quiet, economical ride with top-notch grip that lasts its entire service life.

RETRADING MEANS SUSTAINABILITY

Retreading makes sense – both financially and for the planet. The compatible **Nokian Noktop Hakkapeliitta E2** retreading material will make the entire tire lifecycle more sustainable while maintaining the extreme winter properties.

THE ELEGANCE OF ENGINEERING

HAKKAPELIITTA MEANS WINTER EXCELLENCE

The entire Nokian Hakkapeliitta Truck product series represents the peak of Nokian Tyres' winter know-how for trucks and buses. Made for the most challenging winter conditions, the Nokian Hakkapeliitta Truck line features a winter-ready tire for all axle positions.

E FOR EXTREME

With close to a million units sold, the Nokian Hakkapeliitta Truck E tires and compatible Noktop retreading materials have been a benchmark for winter traction tire for over a decade. The first in groundbreaking innovations such as **over 1100 efficient sipes**, **Winter Safety Indicator** and **special rubber compound**, still offer winter grip that is hard to beat.

E2 FOR EVOLUTION

The new Nokian Hakkapeliitta Truck E2 builds on the tradition of excellence, improving on many areas. The new **peg sipes** enable dense siping and better traction while the **connected-block system** with **open center tread design** guarantees even performance on deep snow and packed ice throughout the tire service life. **Pre-marked stud** locations mean easy, optimized studding.

“With this tire, I did not need snow chains much”

MR. CHRISTIAN EMBRE
Hemsedal Maskinlag AS, Hemsedal, Norway

“This is very durable tire and silent on roads, which adds to the driving pleasure”

MR. HEIKKI LEPO
Metsä-Tuominen Oy, Pirkanmaa, Finland

GET THE MOST OUT OF WINTER

Strike the perfect balance

Safe working with excellent grip, smooth and quiet rolling, sustainable production – today's tire has it all.

Less need for chains

Putting on chains is nobody's favorite part of work – so get comfortable and minimize the need for chains.

Peace of mind every day

Good handling, stability and predictability give you confidence on every surface – throughout the winter.

*On/Off-road use recommended only in winter

The connected-block pattern with transverse tie-bars between the blocks improves tire stability and snow grip, enabling more even wearing.

The new type of dense and deep peg siping allows increased worn grip while maximizing the tire stability.

While achieving a lower noise level and a slightly better winter grip than Nokian Hakkapeliitta Truck E, the Nokian Hakkapeliitta Truck E2 has improved on many areas:

UP TO
20%

more mileage and even wear shape

UP TO
10%

better grip when worn

UP TO
10%

better stability

UP TO
10%

lower rolling resistance

OVER
20%

better acceleration on snow*

UP TO
10%

shorter braking distance*

*) compared to two premium competitors.
