

RM GASTRO World-class kitchen solutions. For real professionals.

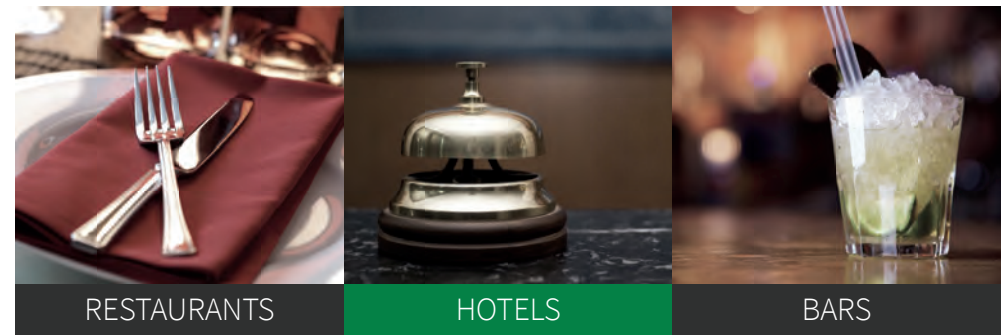

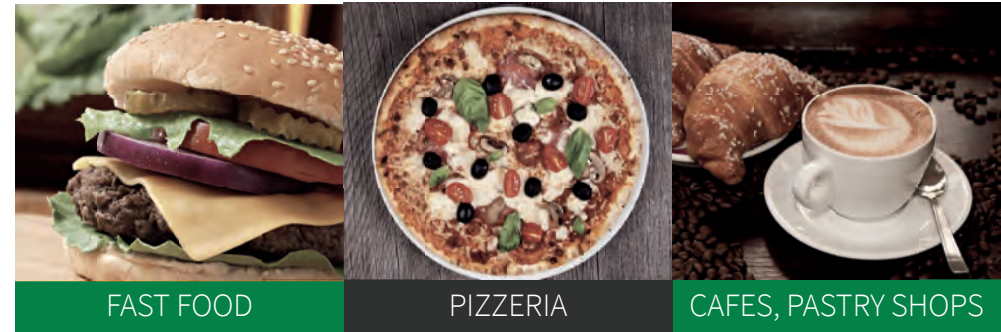

WHO WE ARE...

We are RM Gastro. A recognised **manufacturer of professional catering equipment** throughout Europe. We draw from the extensive experience of the past two decades that we have acquired during our activities on the market, the skills of our employees and our partnerships with our suppliers and satisfied customers.

Because of this, we are able to offer the most recent technologies and precision, using quality materials and complementing our products with unparalleled service. We continually provide **sophisticated made to measure** solutions and first class treatment that is required in today's professional kitchens.

Chefs from all types of kitchens can rely on our catering equipment – from fast food restaurateurs to proprietors of bars, cafes, pastry shops, restaurants, hotels, factories and school cafeterias, right up to the food industry. Every kitchen is unique; our passion for detail and emphasis on quality brings all of its important features together in its own distinctive and symbiotic way.

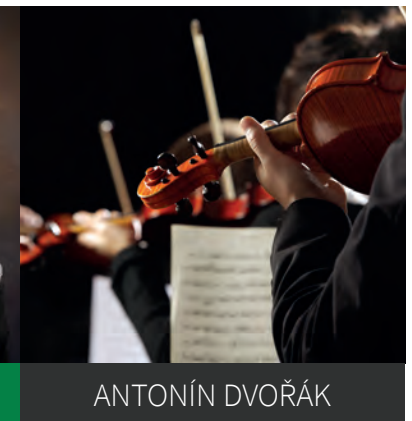

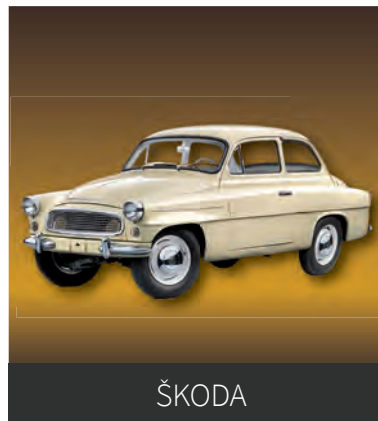

PASSION AND QUALITY...

At RM Gastro, we strive to create our kitchens with a passion for detail and an emphasis on quality. This is why we design and build our products right here in the Czech Republic – in the very heart of Europe. We still use the same traditions and craftsmanship that have been passed down to us through several generations.

We create our products in a country rich with its traditions of technology and engineering, where the boat propeller, the arc lamp, the lightning rod, the contact lens, and numerous nanotechnological advances were first discovered. In a country that produced its first automobile in 1897, and where the world famous Škoda was born and continues to be produced thanks to its technological precision.

We put the same passion into our work that our ancestors placed into the dozens of architectural gems that currently make up the list of UNESCO World Heritage. The same passion found in the works of Antonín Dvořák, Bedřich Smetana, Leoš Janáček, Franz Kafka, Milan Kundera, Miloš Forman, Ferdinand Porsche and Tomáš Baťa. And the same passion that can be found in the unforgettable taste found in the recipes of Pilsner Urquell and Budweiser beers.

The traditions of our family business have continued for the past 120 years and since 1994 we have placed special emphasis on our exceptional products we produce for the catering industry. Our 300 employees create products that serve our satisfied customers in more than 50 countries all around the world.

PRAGUE CASTLE AND CHARLES BRIDGE

WHERE OUR KITCHENS ARE COMING FROM...

We guarantee superior quality, sophisticated production, high durability and an aesthetic value exceptional in each and every one of our kitchens because we design them and build them ourselves. Since 1998, Veselí nad Lužnicí has been the home of our modern production facilities.

Our manufacturing facilities has an area of more ten thousand square metres that brings light **to more than seventy thousand new products** every year. One hundred and eighty of our employees work with modern production technology and production management solutions that are entirely oriented on quality.

We take everything into consideration to ensure that our customers receive superior products that are made in compliance with the highest environmental standards and meet the necessary certifications based on current production regulations.

We believe that good gastronomy deserves a professional environment and our satisfied customers in more than fifty countries around the world have proven us correct. Nonetheless, we still make an effort to improve our products. Our innovation and development centre is continuously working to ensure that you receive only modern advanced products of superior value. Not only for today, but for the years to come.

WHY CHOOSE US...

We believe that every professional kitchen is exceptional and deserves adequate care from the moment it leaves the drafting table. That is why you can have a clear conscience and rely on us when it comes to its care.

We offer you a comprehensive and complete portfolio of products, services and professional solutions for all types of kitchen operations. We create professional kitchens and produce them tailored precisely to meet your needs. We rely on more than twenty years of experience and use the latest technologies.

Every six out of ten products that we provide to our customers are manufactured ourselves.

The remaining products are carefully selected from our suppliers, with whom we have developed a long-term partnership. **We guarantee that you will receive top quality and value** in every product you receive from us.

In 2017, the French-Czech Chamber of Commerce (CCFT) awarded four companies that succeeded in foreign markets. In the category of “Successful SME’s in France”, **RM Gastro has received an award for creation and production of professional catering equipment.** The aim of the French-Czech Chamber of Commerce Award is to encourage other enterprises in their efforts to expand in markets abroad and support trade between the Czech Republic and France.

WE ARE MORE THAN 20 YEARS ON THE MARKET...

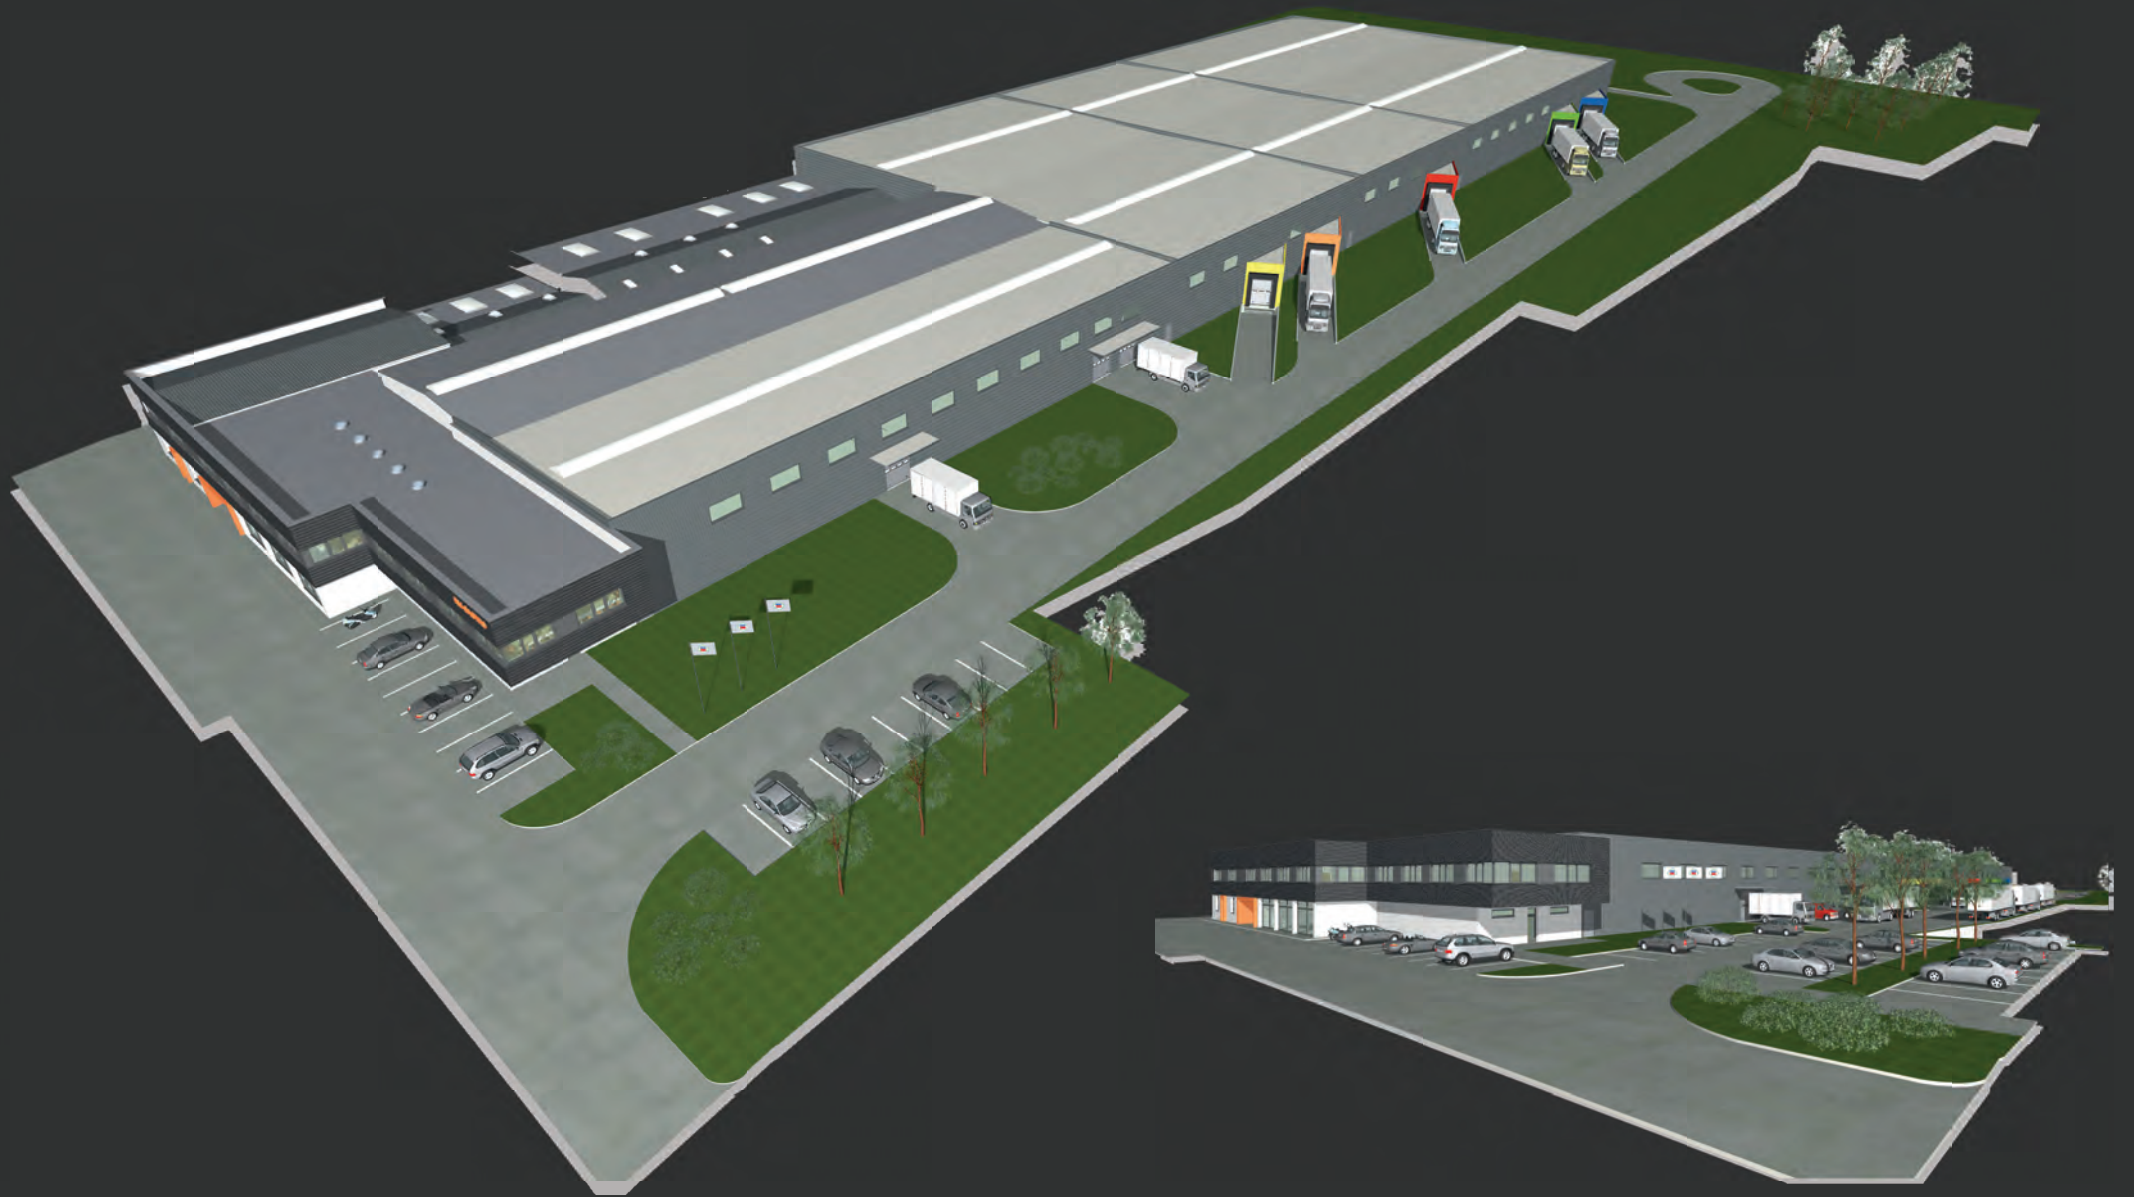

We offer a functional and **attractive design** that will require simple maintenance and even years after you will still be proud of your kitchen. Gastronomy is a form of art, and every work of art deserves to have its own appropriate environment.

We enjoy advising and taking care of our customers. We have a strong and technically competent sales team, as well as a wide network of business partners whom you can rely on. You do not need to be a specialist in every aspect of technology. You can rely on us for that.

We always deliver our products, services and replacement parts **quickly and on time**. We have a basic assortment available of products in our stock at all times. There can never be any type of delay when it comes to kitchens like yours operating in regularly planned hours.

We are a solid, responsible and stable business partner. We respect our customers, partners, employees and their surroundings and have been active for more than **twenty successful years** on the market. And we believe that you can rely on us even for the years to come.

We are **RM Gastro**. European manufacturer of high quality kitchen equipment for real professionals.
