

BELGIAN CHOCOLATE

FORMIT
MOLDED CHOCOLATE

The new chocolate tablet's generation is born.

Get rid of monotonous shapes of tablets and enjoy this new concept of double-sided chocolate.

They are composed of a 3D SUBJECT on the front side and small SEPARABLE PORTIONS ON THE BACKSIDE.

They can also be colored which makes them much more attractive.

Work with our designer team to meet your market's desires and imagine your own Formet® Collection.

International Patent Pending
