#### MANUTENZIONE E PULIZIA:

Per la normale pulizia si consiglia di spolverare con un panno morbido e asciutto. Eventuali macchie possono essere eliminate trattando con un panno umido e prodotti di pulizia delicati come sapone neutro o latte detergente. Evitare di strofinare la superficie da trattare, ma tamponare, dai bordi verso il centro della macchia. é assolutamente vietato usare prodotti abrasivi o aggressivi quali solventi, smacchiatori, ecc... Non usare vapore. Non utilizzare prodotti per la pulizia delle scarpe. Nel caso di macchie più resistenti contattare il fornitore. Evitare la luce diretta del sole. Evitare l'esposizione a fonti di calore.

#### MAINTENANCE AND CLEANING:

*For a normal cleaning we suggest to dust with a soft and dry cloth. Any stain can be removed using a damp cloth and delicate cleaning products such as a neutral soap or detergent. Do not wipe the surface but just butter from the edges to the stain centre. It is absolutely forbidden to use abrasive or aggressive products such as solvents, stain removers etc. Do not use steam. Do not use products for shoes cleaning. For the most resistant stains contact the supplier. Avoid placing leather in direct sun. Keep the leather away from direct heat.*
