ABOUT US

We, the SanaBio GmbH, have been **producers and distributors** of high-quality vegetable oils, gluten-free vegetable and nut flours, and essential oils in the best organic quality for years in the B2B area. Our products are used worldwide as raw materials in the food and cosmetics industries, among others. In recent years, we have also developed into specialists for **imports and exports** from third countries.

PHILOSOPHY

Sustainability, i.e., the triad of environmental protection and social responsibility as the basis for economic reasoning, is not a marketing concept for us, but the foundation for all our operational decisions.

Hence, you only receive products from certified organic cultivation from SanaBio. In the manufacturing of our products, we try to use as much of nature's treasures as possible. If it cannot be avoided, waste is recycled and returned to the material cycle.
