ATELIER TAPIS ROUGE

We are a professional team of artists, architects, colour specialists and producers of handcrafted designer rugs. Our artistic approach is guided by an architect's eye for proportion and backed by the scrupulous study of renowned rug manufacturers' archives from various cultures. Atelier Tapis Rouge is trusted by numerous architects and designers, and has been chosen to perform flooring solutions for The Diamond Fund of the Moscow Kremlin and State History Museum.

FROZEN

Designed by Olga Malyeva, the collection takes its inspiration from the Russian landscape in winter, as reflected in the works of artist Natalia Goncharova and architect Peter Bronfin. The simplistic graphics and primitive lines of the collection are reminiscent of the Russian avantgarde movement and are skillfully transferred onto visually arresting rugs of the highest quality and craftsmanship.

SENSES

The Senses collection is prompted by the depth and inexplicable nature of feelings. The design of the rugs is characterised by a complicated play of light and shadow, highlights and reflections, creating an atmosphere of illusion and mystique. All the pieces in this collection are completed in wool and silk to the highest standard.

ARCHIVE

Composed of contemporary reinterpretations of historically important design, this collection rose out of a collaboration for a private design project. Using art deco elements to evoke a feeling of a lost era, the rugs are completed in wool and silk.

ATELIER TAPIS ROUGE

1. CREATE YOUR DESIGN

2. SELECT SIZE

3. CHOOSE MATERIALS & COLOURS

4. PRICING

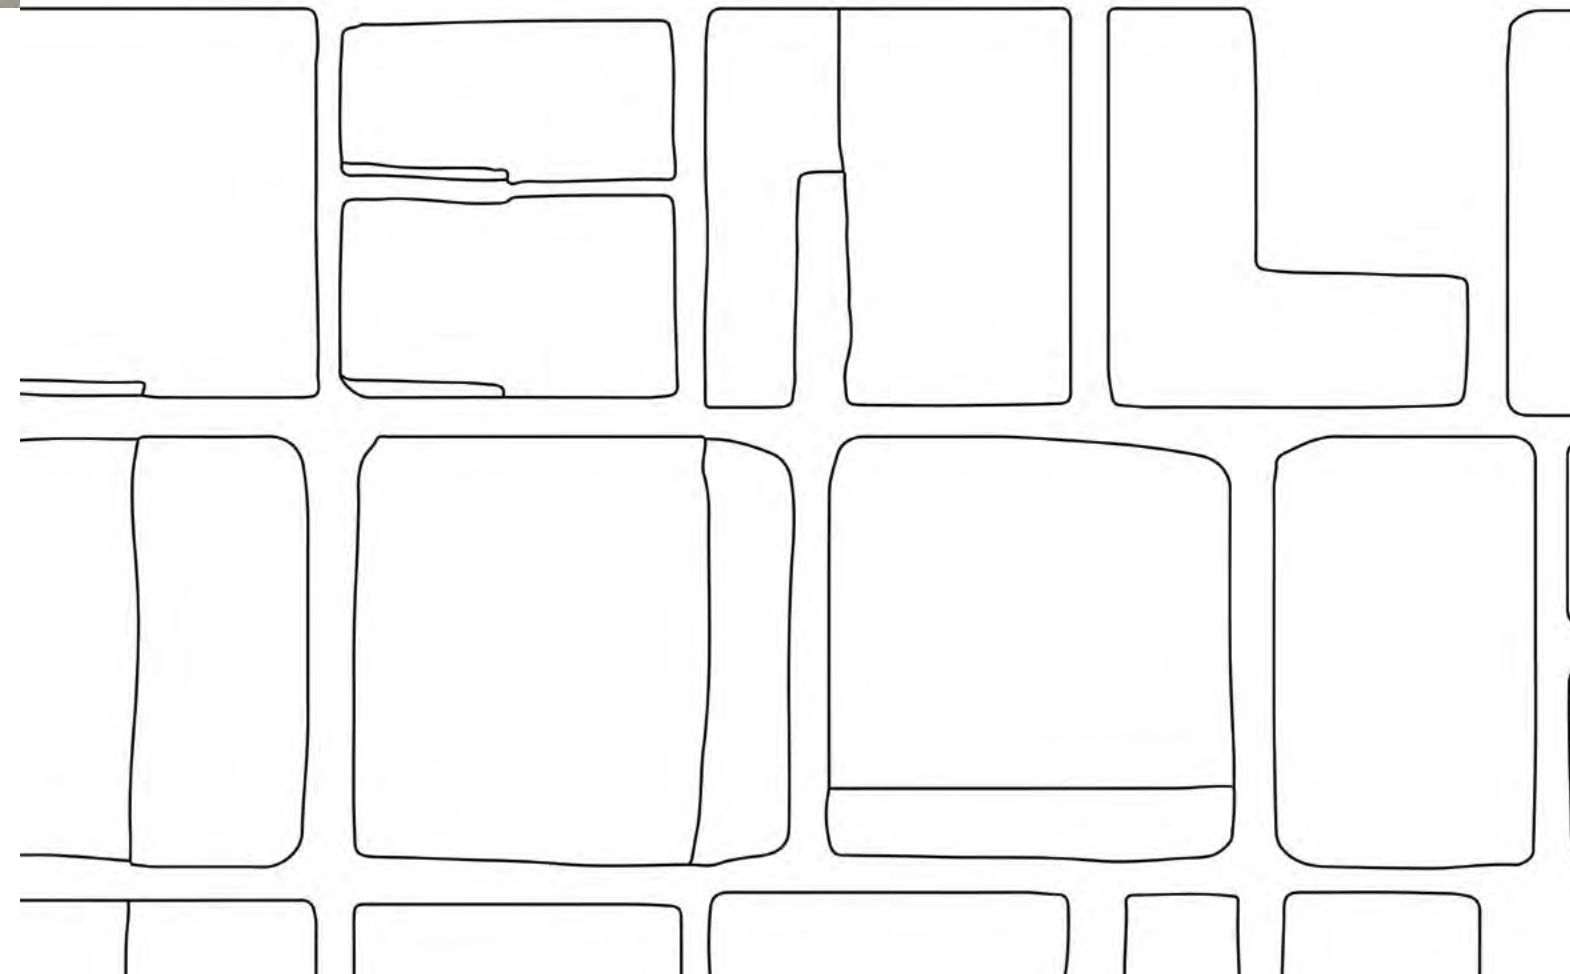

...OR CREATE SOMETHING ENTIRELY NEW

Whether your concept is based on a mood board, a sketch, or even the roughest of ideas, our team of designers, architects and visual artists can help you produce a truly exceptional design piece.

START WITH A PIECE FROM THE TAPIS ROUGE CATALOGUE...

Atelier Tapis Rouge can recreate a piece from its existing collection in any size, shape and colour, as well as add or remove elements, in order to fully realise your vision.

ROOM LAYOUT

ROOM LAYOUT WITH RUGS

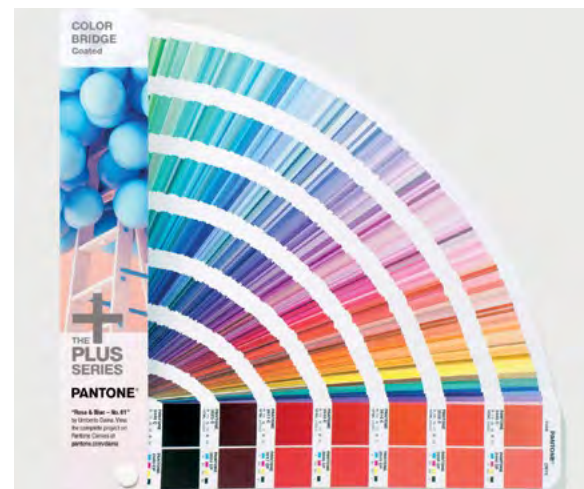

For a rug to fit organically into an interior, the size of the room, the objects in it and their correct placement are paramount. As are details, such as the precise measurement of gap between the floor and the edge of the door, as well as the way daylight is disseminated.

SKETCH OF PROPOSED INTERIOR

First, select the materials from which the carpet will be made; be it silk, wool, aloe, tencel or other materials, this all depends on the design of the carpet and the interior surrounding it.

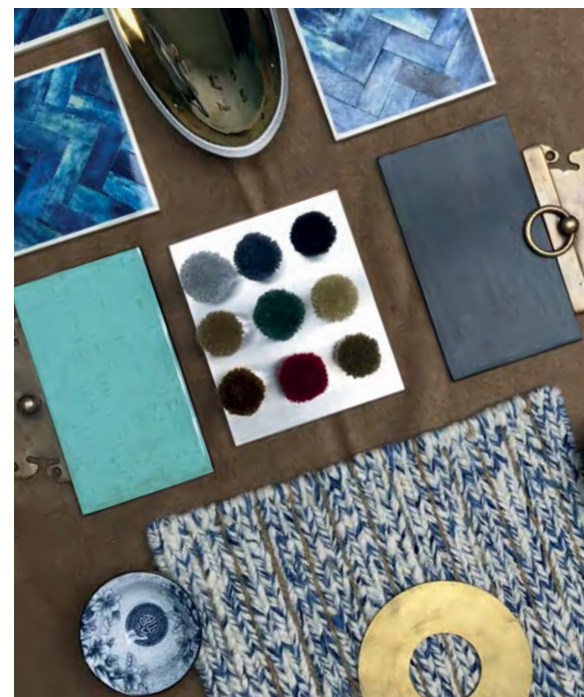

Then, decide on its density, which is directly linked to the design. The colour is selected from Tapis Rouge's exclusive palette, or from the Pantone, or RAL palettes.

LA SCALA

The La Scala collection, designed by Mike Shilov, is inspired by the architectural shapes and finishes of Italian staircases. Fine lines are juxtaposed with the colour depth of the background, the rug's natural softness and its high percentage of silk, creating a luxurious and captivating design.
