

M[®]FILTER

AUTOMOTIVE FILTERS

MANUFACTURER

Area

Staff:

Administration – 30

Production – 150

2600 m² production plant for passenger car filters

3500 m² production plant for plastic parts

2500 m² production plant for commercial vehicle filters

Building area:

Production - 7100 m²

Storage - 4500 m²

Production capacity:

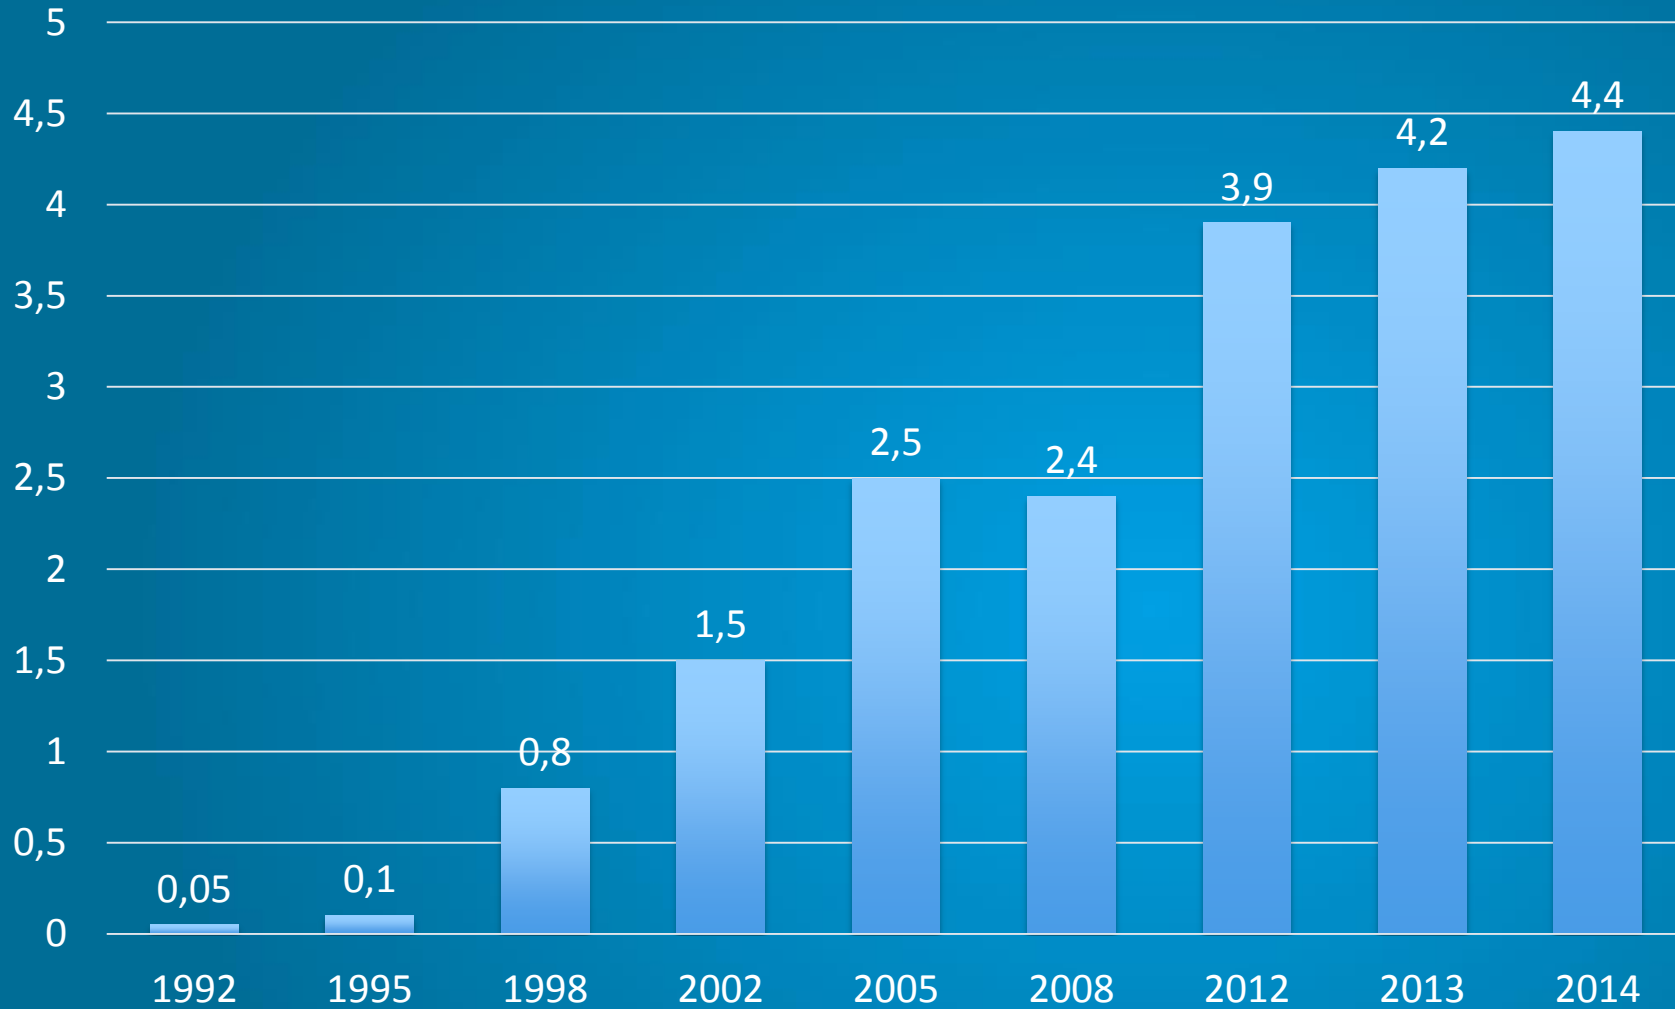

Light vehicles – 3 500 000 pcs.

Commercial/Special – 3 500 000 pcs.

Milestones

- 1992 Foundation of the Private company;
- 1997 Foundation of the JSC „MATURE“;
- 2000 Trademark "MFilter" introduced;
- 2005 Certificates ISO 9001 and ISO 14001 received;
- 2006 Utilization line for filter elements implemented;
- 2008 Production plant for truck filters opened;
- 2010 Certificate ISO/TS 16949 gained;
- 2011 TecDoc certified supplier;
- 2012 EU funds investment – 2.5 million €;
- 2013 QAD - business management program;
- 2014 Fully automatic cabin filters production line;
- 2015 Testing laboratory (ISO 5011);
- 2015 ECO filters production line.

Why us?

PRODUCTION QUALITY

- Highest quality proved by certification;
- EU Standards;
- Full production cycle on site: from design to final product;
- In house production for plastic parts;
- Highly automated production lines;
- Only trusted suppliers of raw materials;
- Full supply chain traceability;
- On site laboratory (ISO 5011), quality control department, warehousing.

Why us?

FLEXIBILITY

- Full production cycle for air and cabin filters;
- 2 production plants (Light, Heavy) in Lithuania, EU;
- Flexible order quantity;
- High productivity;
- Private labelling experience;
- Short production lead time;
- Perfect location.

Why us?

CUSTOMER SERVICE

- Customer orientated;
- Over 20 years of international experience;
- Online catalogue with cross reference, dimensions and pictures;
- Trusted by military sector in EU;
- 90% of production is exported to over 45 countries;
- E-Ordering system for clients;
- Socially responsible and environmentally friendly business.
