Jesteśmy z Polski  
We are from Poland

Firma Vanstar została założona w 1993 roku. W pierwszych latach działalności wytwarzała elementy układu wydechowego przeznaczone do samochodów ciężarowych produkcji polskiej. Odpowiadając na zapotrzebowanie klientów oferta została poszerzona i obecnie obejmuje kompletne układy wydechowe do wszystkich wiodących marek pojazdów użytkowych.

Vanstar was established in 1993. During its first years of operations, the company was engaged in the manufacture of exhaust systems and these components were designed for commercial trucks which were manufactured by Polish companies. Responding to the client's demands, we then extended our offer to include complete exhaust systems for all leading makes of commercial vehicles.

# Strategia Strategy

Ideą firmy Vanstar jest projektowanie, produkcja i dystrybucja kompletnych układów wydechowych do wszystkich typów pojazdów użytkowych i maszyn przemysłowych. Cel przedsiębiorstwa to ciągle poszukiwanie i stwarzanie rozwiązań w zakresie technologii emisji spalin stosowanych w oferowanych produktach.

Jesteśmy producentem obecnym na każdej płaszczyźnie europejskiego rynku. Nasze produkty dostępne są na rynku części pierwszego montażu (OEM), rynku części przeznaczonych do autoryzowanych serwisów pojazdów (OES) oraz rynku części zamiennych (AEM). Współpracujemy z największymi hurtowniami motoryzacyjnymi w Polsce i Europie.

Vanstar's idea is to design, manufacture and distribute complete exhaust systems for all types of commercial vehicles and industrial machinery. The company primarily aims at searching for and creating solutions within the exhaust emission technologies, which are used in the products offered.

We are an active player in every sector of the European market. Our products are available in the Original Equipment Manufacturers (OEM), Original Equipment Services (OES) and secondary vehicle parts (AEM) markets. We co-operate with the largest vehicle parts wholesalers in both Poland and Europe. Our intention is to timely deliver top quality products much to the satisfaction of our clients.

## Ochrona środowiska Environment

Istotnym elementem zarządzania jakością jest gwarancja, że Vanstar produkuje swoje wyroby ze świadomością tego, jaki mają one wpływ na środowisko naturalne. Zarząd firmy prowadzi na bieżąco dokumentację inicjatyw podejmowanych wobec ochrony środowiska, co pozwala na ocenę ich efektywności.

Ponadto firma wdrożyła certyfikat zgodny z normą ISO 14001:2000, który zawiera wymagania dotyczące systemu zarządzania środowiskowego. Organizacja, polityka i cele firmy są tworzone z uwzględnieniem wymagań przepisów prawnych oraz informacji dotyczących znaczącego wpływu na otoczenie naturalne. Posiadanie certyfikatu ISO 14001:2000 oznacza, że postanowione przez nas cele wobec ochrony środowiska są stale oceniane i aktualizowane.

An essential element for quality management is Vanstar's declaration which is to have an awareness of the impact which products have on the natural environment. The company's management records show the purpose of protecting the environment, thus evaluating their effectiveness on an ongoing basis.

In addition, the company has implemented a certificate complying with the ISO 14001:2000 standard, which sets out the requirements of an environmental management system. The company's organization, policy and objectives are developed with the consideration of relevant legal regulations and information on the significant impact on the environment.

# Produkty Products

## Katalizatory EURO IV/V

Ścisłe limity emisji spalin obowiązują w UE od 1 stycznia 2005 roku. Wszystkie pojazdy użytkowe muszą być produkowane i dostarczane z zamkniętym filtrem cząstek stałych. W związku z tym w niedalekiej przyszłości, coraz więcej europejskich miast wprowadzi wysokie wytyczne dotyczące redukcji emisji spalin. Tylko te pojazdy, które spełniają co najmniej normę Euro IV otrzymują długoterminowe uprawnienia do kierowania się w strefach ochrony środowiska. Obecnie istnieje tylko jeden sposób, aby skutecznie zredukować emisje z silników wysokoprężnych - jest to filtr cząstek stałych.

### ZALETY FILTRÓW FIRM VANSTAR I TB TWINTEC BAUMOT GROUP:

- ✓ Redukcja emisji cząstek stałych o ponad 99%,
- ✓ Redukcja węglowodorów (HC) i tlenku węgla (CO) wyraźnie poniżej granic UE,
- ✓ Łatwy do czyszczenia, całkowicie pasywny system z automatyczną regeneracją,
- ✓ Regeneracja filtra następuje nawet przy niskiej temperaturze gazów wydechowych (od 230°C),
- ✓ Obudowa wykonana w całości z odpornej na korozję i odpornej na wysokie temperatury stali nierdzewnej (INOX)
- ✓ Długi okres użytkowania dzięki twardej konstrukcji filtra.

## Particulate filters EURO IV/V

Strict exhaust emissions limits have been in force in the EU since 1st January 2005. According to the Euro VI Standard, all heavy utility vehicles must be produced and delivered with a closed diesel particulate filter as of 2014. In the near future, more and more European cities will introduce strict emission reduction measures as a result of this law. Only those vehicles that fulfil the Euro IV standard will receive long-term authorisation to drive in the environmental zones. There is currently only one way to effectively reduce fine dust emissions from diesel engines which is the particle filter.

The Vanstar Company offers particulate filters to all of the most popular trucks. The benefits of our products:

- ✓ • Reduction of particle emissions by over 99%,
- ✓ • Reduction of hydrocarbons (HC) and carbon monoxide (CO) clearly below the EU limits,
- ✓ • Low-maintenance, completely passive system with automatic regeneration,
- ✓ • Filter regeneration even at low exhaust gas temperatures (from 230°C),
- ✓ • Housing made entirely of corrosion-free high temperature-resistant stainless steel,
- ✓ • Long useful life thanks to tough filter construction.

# Produkty Products

## Tłumiki

Każdy tłumik produkowany przez firmę Vanstar wygłusza dźwięk spalin w takim samym stopniu jak produkty oryginalne. Zastosowanie materiałów ze stali nierdzewnej bądź blach obustronnie aluminiowanych oraz kontrola jakości na każdym stopniu produkcji gwarantuje długą i bezawaryjną pracę. Oferujemy także produkcję tłumików na zlecenie klienta, np. do agregatów prądotwórczych, maszyn budowlanych i pojazdów specjalnych.

## Silencers

Each silencer manufactured by Vanstar muffles the sound of the exhaust to the same level as the original product. The use of stainless steel materials or both sides of aluminized metal sheet and having quality control at every stage of production, ensures long and reliable operation. We also manufacture silencers on an individual order of a client, e.g. for power generators, construction machinery and special vehicles.

## Rury wydechowe

Produkujemy rury wydechowe ze stali obustronnie aluminiowanej i nierdzewnej (od fi 50,0mm do fi 152,4mm). Sto procent surowca pochodzi od najlepszych europejskich dostawców rur zimnowalcowanych ze szwem. Szeroki park maszynowy umożliwia nam gięcie nawet najbardziej skomplikowanych elementów wykonanych z litego materiału, unikając spawania. Dzięki temu trwałość naszych produktów jest na wyjątkowo wysokim poziomie. Rury wydechowe firmy Vanstar produkowane są na rynek AEM i OE. Znajdują one zastosowanie w niemal wszystkich modelach autobusów, samochodów ciężarowych i dostawczych.

## Exhaust pipes

We produce exhaust pipes made from both side's aluminized steel and stainless steel (diameter from 50,0mm to 152,4mm). All of the raw material comes from Europe's top suppliers of cold rolled welded tubes. Extensive machinery stock enables us to bend, avoiding welding, even the most complicated parts made of solid material. Durability of our products is exceptionally high. Vanstar's exhaust pipes are manufactured for the AEM and OE market. Our products are used in almost all models of buses, trucks and vans.

# Produkty Products

## Rury wody

Rury wody, a dokładniej rury układu chłodzenia hamulca górskiego (zwanymi inaczej: retarder, intrader itp.) to elementy transportujące ciecz chłodzącą. Na życzenie naszych klientów, stale powiększamy ofertę na te produkt. Liczba rur wody oferowanych przez firmę Vanstar wynosi już niespełna 90 pozycji pasujących do najbardziej popularnych modeli pojazdów

## Water pipes

Water pipes or more specific: the pipes cooling of mountain brake system (called differently: retarder, intrader etc.) are elements that transport coolant. At the request of our customers, we are increasing the variety of offered products. Number of water pipes offered by Vanstar has reached 70 items that match the most popular vehicle models.

## Rur uniwersalne

Nasza oferta zawiera całą gamę rur o przeznaczeniu uniwersalnym wykonanych ze stali nierdzewnej i stali aluminizowanej. Są to m.in. rury proste i wylotowe, kolana gięte i tłoczone, redukcje i łączniki rur, zakończenia rur (kielichy męskie i żeńskie). Elementy te należy stosować wszędzie tam, gdzie konieczna jest naprawa rury układu wydechowego, czyli w remontach samochodów użytkowych, sprzęcie rolniczym, małych jednostkach pływających, lokomotywach spalinowych, wózkach widłowych czy agregatach prądotwórczych.

## Universal pipes

Our offer includes a wide range of all-purpose pipes. All are made of stainless steel and aluminized steel. These include straight pipes and exhaust pipes, bend pipes and pressed elbows, pipe adaptors, pipe fittings; pipe ends (male and female V-Clamp connections). These elements should be used to repair the exhaust pipe, or in repairing commercial vehicles, agricultural equipment, small vessels, diesel locomotives, forklifts and generator sets.

# Produkty Products

## Akcesoria

W ofercie firmy Vanstar są wszystkie potrzebne akcesoria, które są tak niezbędne, przy montażu układu wydechowego. Są to m.in.: obejmy rur, wieszaki i obejmy tłumików, poduszki i zawieszki, osłony termiczne, osłony przeciwdeszczowe, pochłaniacze iskier, flansze i uszczelki.

## Accessories

Vanstar's offer includes all the necessary accessories that are used for installation of the exhaust system. These includes: pipe clamps, muffler hangers ,clamps, cushions and slings, thermal shields, rain caps, pipe spark arrestors, flanges and gaskets.

## Obejmy

Połączenia między poszczególnymi elementami układu wydechowego muszą być trwałe i szczelne, by zapewnić odpowiedni poziom bezpieczeństwa i bezawaryjnej pracy silnika. Firma Vanstar ma w swojej szerokiej ofercie różnego rodzaju obejmy o bardzo szerokim zastosowaniu. Nadają się one do połączeń ze sobą takich elementów jak: rury wydechowe, rury wody, złącza elastyczne, tłumiki, filtry itp. Obejmy dostępne są w zależności od modelu – w stali ocynkowanej lub nierdzewnej.

## Clamps

Connections between different parts of the exhaust system must be stable and tight in order to provide an adequate level of security and trouble-free engine operation. Vanstar offers different types of clamps with a very wide range of applications. They are suitable to connect such items as exhaust pipes, water pipes, flexible connectors, silencer's, filters, etc. Clamps are available depending on the model – in galvanized or stainless steel.

# Produkty Products

## Oslony przeciwdeszczowe

Pionowe układy wydechowe, montowane m.in. w sprzęcie budowlanym bądź rolniczym, bardzo często wymagają ochrony przed wodą deszczową, która mogłaby dostać się do ich wnętrza. Najlepszym zabezpieczeniem są osłony przeciwdeszczowe. Otwierają się one samoczynnie podczas pracy układu wydechowego, umożliwiając swobodny wypływ spalin, a zamykają wydech podczas jego bezczynności. Firma Vanstar oferuje kilkadziesiąt osłon przeciwdeszczowych dla różnych średnic rur w dwóch wersjach materiałowych – ze stali ocynkowanej i nierdzewnej.

## Rain caps

Vertical exhaust systems installed in building machines or agricultural equipment often requires protection from rainwater, which could get into them. The best protection is rain caps. They open automatically when the exhaust system is working, allowing free flow of exhaust gas and closing it when the exhaust system is in idle. The Vanstar offers dozens of rain caps for different pipe diameters, made of two materials - galvanized steel and stainless steel.

## Połączenia uniwersalne

Połączenia uniwersalne pozwalają remontować, bądź budować układy wydechowe w bardzo ekonomiczny i szybki sposób. Nie trzeba wymontowywać całego uszkodzonego elementu – wystarczy wyciąć zepsutą część i zastąpić ją nową. Do każdego połączenia uniwersalnego firmy Vanstar polecamy dedykowane obejmy.

## Universal connectors

Universal connectors allow renovating or building of exhaust systems in a very cost-effective and fast way. There is no need to disassemble the entire damaged item – simply cut out the broken part and replace it with a new one. For each universal connector dedicated clamps are recommended.

## Pochłaniacze iskier

Vanstar ma w swojej ofercie szeroką gamę pochłaniaczy iskier, które można montować na różne średnice rur wylotowych. Elementy te stosowane są wszędzie tam, gdzie ewentualne wydostanie się z układu wydechowego iskier, mogłoby spowodować wybuch oparów substancji niebezpiecznych. Najlepszym przykładem ich wykorzystania są: ciągniki siodłowe w zestawie z cysterną paliwową, maszyny rolnicze pracujące przy zbiorze zbóż, pojazdy leśne bądź agregaty prądotwórcze.

## Pipe spark arrestors

Vanstar offers a wide range of pipe spark arrestors, which can be assembled to outlet pipes of different diameters. These components are used to prevent the emission of exhaust sparks, which could cause an explosion of fumes of hazardous substances. The best example of their use is: tractors supplied with fuel tanker, agricultural machinery used for harvesting, forestry vehicles or power generators.

# Produkty Products

## Złącza siatkowe

Złącza siatkowe są też nazywane łącznikami elastycznymi. Ich budowa jest zbliżona do budowy kompensatora miechowego. Różnica polega na tym, iż jest on dodatkowo wzmocniony siatką stalową na zewnątrz lub także w środku. Dzięki temu złącze siatkowe jest w stanie pochłaniać drgania zapewniając najwyższą dostępną wytrzymałość.

## Bellows with steel braid

Bellows with steel braid are also called flexible connectors. Their structure is similar to the construction of the bellow itself. The difference lies in the fact that it is additionally reinforced with a steel mesh on the outside or the inside. This allows absorbing vibrations and provides maximum strength.

## Miechy

Elementy elastyczne odpowiedzialne są za pochłanianie wibracji i naprężeń wywołanych przez silnik przez co zabezpieczają układ wydechowy przed uszkodzeniem. Kompensatory miechowe oferowane przez firmę Vanstar wykonane są z podwójnej rury cienkościennej, ze stali nierdzewnej, uformowane w przekroju poprzecznym sinusoidalnie. Taka konstrukcja zapewnia bezawaryjne działanie i 100%

## Bellows

The flexible elements are responsible for absorbing vibration and stress caused by the motor hence the exhaust system is protected against damage. Bellows offered by Vanstar are made of a double tube, stainless steel, formed into a sinusoidal cross-section. This design ensures trouble-free operation and the 100% tightness of the finished item.

# Produkty Products

## Rury elastyczne EURO I, II, III

Rury elastyczne VanFlex zwane popularnie rurami Pieszla są odpowiedzialne za pochłanianie wibracji i naprężeń wywołanych przez silnik. Dzięki ich zastosowaniu możliwe jest kompensowanie wzdluzne układu wydechowego, na które wpływ mają gorące spaliny.

Oferta firmy Vanstar zawiera dwa typy rur elastycznych VanFlex: 2S i 3S. Rury typu VanFlex 2S przeznaczone są do pojazdów spełniających normy emisji spalin do poziomu Euro 3. Tego typu rury wykonane są z paska ocynkowanej bądź nierdzewnej blachy łączącej się za pomocą 2 zamków przypominających w przekroju literę S.

## EURO I, II, III elastic pipes

VanFlex flexible pipes are responsible for absorbing vibration and stress caused by the engine. Thanks to their application, longitudinal compensation of the exhaust system is possible, which is caused by hot combustion gases is possible. VanFlex 2S elastic pipes are designed for vehicles that meet Euro 3 emission standards. This type of pipe is made of galvanized steel strip or stainless steel strip connected via two locks resembling the letter S.

## Rury elastyczne EURO IV, V, VI

Rury VanFlex 3S przeznaczone są do układów wydechowych spełniających normy emisji spalin Euro 4 lub wyższe. Ten produkt jest bardziej szczelny niż rura 2S. Wykonany jest on z paska blachy nierdzewnej łączącego się ze sobą za pomocą 3 zamków przypominających w przekroju literę S. Wyższa szczelność tego elementu zapobiega przed znaczną utratą temperatury w układzie wydechowym, która jest niezbędna do odpowiedniej katalizy w systemie SCR. Podnosi to sprawność katalizatora a w skrajnym przypadku może uchronić przed jego zapchaniem.

## EURO IV, V, VI elastic pipes

VanFlex 3S elastic pipes are designed for vehicles that meet Euro 4 or higher emission standards. This product is tighter than the 2S pipe. It is made of stainless steel strips connected with each other by the means of three locks in cross section resembling the letter S. Higher tightness of the element prevents significant loss of temperature in the exhaust system. The high temperature is necessary to catalyse in the SCR system. This increases the efficiency of a catalyst and in extreme cases can prevent its blockage.

# Produkty Products

## VanElastic

Izolacja z folii aluminiowej VanElastic przeznaczona jest do układów z silnikami diesla, gdzie temperatury w układzie wydechowym nie przekraczają 550°C. Elementy wydechu izoluje się taśmą z folii aluminiowej (która stanowi ekran termiczny), połączonej z włóknem szklanym (stanowiącym izolator termiczny). Dwie lub trzy warstwy tej taśmy wystarczą by znacznie obniżyć temperaturę na zewnątrz układu wydechowego. Izolację zabezpiecza się elastomerem, który wulkanizuje się po rozgrzaniu wydechu.

## VanElastic

VanElastic insulation is aluminium foil which is designed for exhaust systems assembled in diesel engines, where the temperature in the exhaust system does not exceed 550°C. Exhaust components are isolated with strips of aluminium foil (which provide a heat shield), combined with glass fibre (which is a thermal insulator). Two or three layers of the tape are enough to significantly lower the temperature on the outside of the exhaust system. The insulation is protected by the elastomer, which is vulcanized when the exhaust system warms.

## VanMaterial

Mata termiczna VanMaterial oferowana przez firmę Vanstar przeznaczona jest do stosowania na produktach, które osiągają temperatury rzędu 900°C. Mogą to być zarówno rury wydechowe jak i tłumiki, katalizatory czy też filtry cząstek stałych. Izolacja VanMaterial jest indywidualnie dobierana do danego elementu przez co jej spasowanie jest idealne.

## VanMaterial

The Vanstar VanMaterial thermal mat is intended for use on products that reach temperatures of 900°C. These could be: exhaust pipes, silencers, catalysts or particulate filters. Van Material isolation is individually adjusted to the specific element, so it fits perfectly.

# Produkty Products

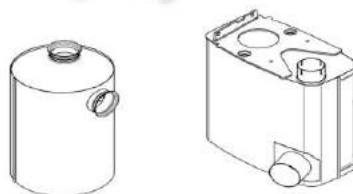

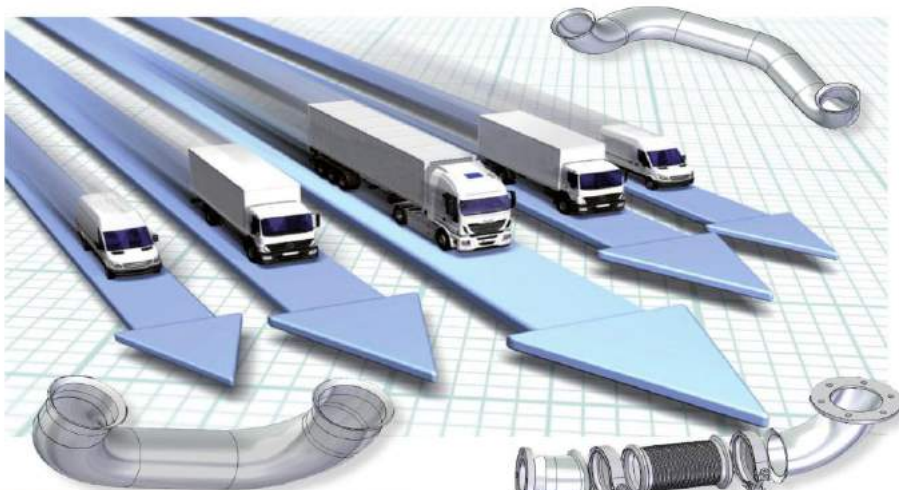

## VanInox

Izolacja VanInox złożona jest z folii nierdzewnej (na zewnątrz) i włókna szklanego (w środku). Stosowana jest ona w elementach układu wydechowego, których temperatura pracy jest zbliżona do 1000°C. Taka charakterystyka pracy uzyskiwana jest przeważnie w najnowocześniejszych silnikach spełniających normy emisji spalin EURO 5, 6 lub zasilanych paliwem gazowym – CNG. Ze względu na swój skład chemiczny oraz specjalny proces wytwarzania izolacja VanInox wykazuje znakomitą odporność na ciągle temperatury rzędu 1000°C oraz chwilowe temperatury do 1600°C.

## VanInox

VanInox insulation film is composed of stainless steel (outside) and glass fibers (in the middle). It is used on the elements of the exhaust system, where the operating temperature is close to 1000°C. This characteristic is achieved mostly in the most modern engines that meet Euro 5, 6 emission standards or are fuelled by gaseous fuels - CNG. Due to its specific chemical composition and a process of producing, the insulation VanInox has excellent resistance to constant temperature of about 1000°C, and instantaneous temperature of 1600°C.

# Części oryginalne Original Equipment

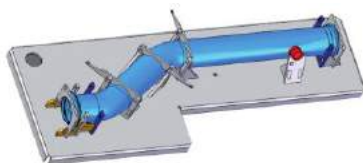

Wieloletnie doświadczenie w produkcji układów wydechowych, szerokie możliwości techniczno – technologiczne, elastyczność i szybkość działania oraz wysoka jakość produktu finalnego pozwoliły nam na zbudowanie doskonałych relacji z wieloma producentami różnego typu pojazdów. Jesteśmy wiodącym dostawcą na rynek pierwszego montażu dla wiodących producentów samochodów ciężarowych, autobusów, maszyn rolniczych, pojazdów budowlanych i specjalistycznych oraz agregatów prądotwórczych.

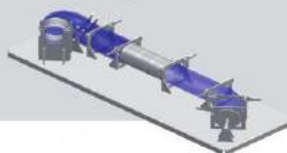

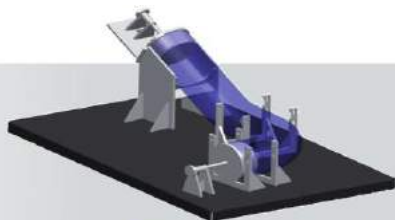

The experiences which have been gathered throughout many years of production of exhaust systems are: great technical and engineering potential, flexible and speedy operations. As well as a high quality final product allowing us to develop perfect relations with many vehicle manufacturers. We are a leading supplier on an Original Equipment Market for leading manufacturers of trucks, buses, agricultural machinery, construction and specialized vehicles and generators.

Our spare parts are not the originals but interchangeable with the originals ones. All original equipment manufacturer numbers, pictures and models used in this catalogue are for reference only. Our products bear our trade - mark.

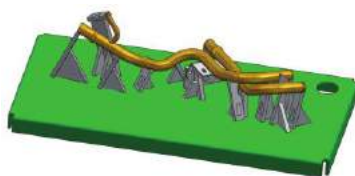

# Wysoka jakość High quality

Firma Vanstar posiada najwyższy poziom zarządzania jakością, co gwarantują wdrożone certyfikaty zgodne z normą ISO 9001:2008 oraz ISO14001:2000. Obecnie przygotowujemy się do certyfikowania systemu jakości zgodny z normą ISO-TS16949. Zastosowanie najnowszych, stale udoskonalanych technologii oraz wdrożonych i wdrażanych certyfikatów sprawia, że wszystkie procesy produkcyjne w firmie Vanstar, są stale monitorowane i kontrolowane.

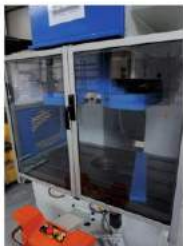

Vanstar company has the highest level of quality management, what is ensured by certificates implemented in accordance with ISO9001: 2008 and ISO14001: 2000. Currently we are preparing the quality system to be certified in accordance with ISO-TS16949. By using the latest, constantly improved technology and obtained certificates, all production processes in Vanstar are constantly monitored and controlled.

# Technologia Technology

Our spare parts are not the originals but interchangeable with the originals ones. All original equipment manufacturer numbers, pictures and models used in this catalogue are for reference only. Our products bear our trade - mark.

Korzystamy z najnowszych rozwiązań na wszystkich etapach procesu produkcyjnego: od momentu tworzenia oprzyrządowań potrzebnych przy produkcji na pierwszy montaż (OE) do momentu kontroli jakości gotowego wyrobu. Do produkcji naszych wyrobów używamy zaawansowanych technologicznie maszyn sterowanych numerycznie (CNC), do których dane przekazywane są bezpośrednio z programów do projektowania 3D (CAD-CAM). Własna narzędziownia wyposażona w obrabiarki CNC ułatwia wdrażanie nawet najtrudniejszych technologicznie produktów.

We use the latest solutions at all stages of the production process: from the creation of tooling needed for the production of the first assembly (OE), to the quality control of the finished product. For the production of our products we use technologically advanced numerically controlled machines (CNC), for which the data is transferred directly from the 3D design software (CAD-CAM). Our tool room is equipped with CNC machine which makes it easy to implement even the most technologically complicated products.

Our spare parts are not the originals but interchangeable with the originals ones. All original equipment manufacturer numbers, pictures and models used in this catalogue are for reference only. Our products bear our trade - mark.

# Projektowanie CAD-CAM

## CAD-CAM Engineering

Nasze biuro techniczne dysponuje nowoczesnym oprogramowaniem do projektowania 3D. Używamy zaawansowanych programów do projektowania CAD-CAM, m.in.: Solid Edge, Delcam Power INSPECT. Wszystkie dane techniczne przesyłane są bezpośrednio do komputerów maszyn, które wykonują większość procesów produkcyjnych. Dzięki takiemu podejściu unikamy ludzkich błędów.

Our technical office is equipped with 3D design software. We use advanced CAD-CAM design software such as: Solid Edge, Delcam Power, INSPECT. All technical data is transferred directly to production machines' computer which do most of production processes. This means human errors can be avoided.

## Sprzedaż i dystrybucja Sales and distribution

Dynamicznie poszerzamy gamę naszych produktów oferowanych dla nowych modeli pojazdów użytkowych jak i maszyn rolniczych. Nieustannie dywersyfikujemy naszą ofertę i dziś liczy ona ponad 7000 produktów. Zgodnie z przyjętą strategią dostarczania kompletnych układów wydechowych, nasz katalog zawiera pełną gamę uniwersalnych części, obejmujących rury, kolana, złącza elastyczne, pionowe układy wydechowe, obejmy, obejmy tłumika, osłony przeciwdeszczowe i inne elementy montażowe. Jesteśmy wiodącym europejskim dostawcą rur wydechowych i elementów pomocniczych dla producentów autobusów, samochodów ciężarowych, maszyn budowlanych, ciągników rolniczych oraz silników-generatorów.

We dynamically extend the range of the products offered and recurrently market products for new models of commercial vehicles and agricultural machines. We are constantly diversifying our offer and today we have over 7000 references. According to the strategy, adopted to supply complete exhaust systems, our catalogue sets out a full range of universal parts involving: pipes, elbows, flexible connections, vertical exhaust systems, clamps, silencer clamps, rain caps and other fitting elements. We are a leading European supplier of OE exhaust pipes and auxiliary elements for the manufacturers of buses, trucks, building machines, farm tractors and engine-generators.

## RURY OZDOBNE/ DECORATIVE PIPES - INOX

Suitable to:  
**MAN TGS 26.320**

Rura wody

30003MN

30004MN

30005MN

Kompletna rura  
(Complete pipe)

30006MN

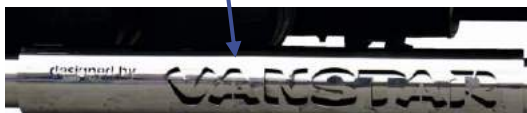

30007MN

Kolanko  
(Bend pipe)

107052R

Osłona termiczna  
(Thermal shields)  
L= 1m

107051R

Rura wylotowa  
(Tail pipe)

Suitable to:  
**SCANIA**

10001SC

Our spare parts are not the originals but interchangeable with the originals ones. All original equipment manufacturer numbers, pictures and models used in this catalogue are for reference only.  
Our products bear our trade - mark.

## RURY NOŚNE BŁOTNIKÓW / FENDER PIPES

### UNIVERSAL

**107029R** Kwadratowa flansa / Square flange  
Rura nośna błotnika / Fender pipe

**107096R** Trójkątna flansa / Triangular flange  
Rura nośna błotnika / Fender pipe

Suitable to:  
**DAF**

**70001DF** Suitable to DAF 95XF  
1629036  
259600  
Rura nośna błotnika, tył / Tail fender pipe

**70002DF** Suitable to DAF 95XF, XF95, XF 105, CF  
1610454  
252199  
Rura nośna błotnika, tył / Tail fender pipe

Suitable to:  
**IVECO**

**50006IV** Suitable to IVECO STRALIS  
41213729  
Rura nośna błotnika, tył lewy/ Tail. left fender pipe

Suitable to:  
**MAN**

**30001MN** Suitable to MAN  
81664200237  
Rura nośna błotnika / Fender pipe

**30009MN** Suitable to MAN TGA, TGX  
81664200237  
Rura nośna błotnika, tył lewy/ Tail. left fender pipe

**30010MN** Suitable to MAN TGA, TGX  
81664200234  
Rura nośna błotnika, tył prawy / Tail. right fender pipe

**30011MN** Suitable to MAN TGA, TGX, tgs  
81664200108  
Rura nośna błotnika, tył / Tail fender pipe

Suitable to:  
**RENAULT**

**40006RE** Suitable to RENAULT PREMIUM, MAGNUM  
7421011688  
Rura nośna błotnika, tył prawy / Tail. right fender pipe

**40007RE** Suitable to RENAULT PREMIUM, MAGNUM  
7421011689  
Rura nośna błotnika, tył lewy/ Tail. left fender pipe

## ZDERZAKI DO NACZEP BUMPERS FOR TRAILERS

Suitable to:

**107006R** ZDERZAK UNIWERSALNY DO NACZEPY L=2400 mm  
UNIVERSAL BUMPER FOR TRAILER L=2400 mm

**107055R** ZDERZAK UNIWERSALNY DO NACZEPY L=2300 mm  
UNIVERSAL BUMPER FOR TRAILER L=2300 mm

**107056R** ZDERZAK UNIWERSALNY DO NACZEPY L=2100 mm  
UNIVERSAL BUMPER FOR TRAILER L=2100 mm

Suitable to:

**107057R** ZDERZAK DO NACZEPY SHMITZ L=2400 mm, H=400 mm  
BUMPER FOR TRAILER SHMITZ L=2400 mm, H=400 mm

**107058R** ZDERZAK DO NACZEPY WIELON L=2400 mm, H=400 mm  
BUMPER FOR TRAILER WIELON L=2400 mm, H=400 mm

## OSPRZĘT (ACCESSORIES)

**107075R** Uchwyt plastikowej skrzynki na gaśnicę  
(Metal handle for plastic box for fire extinguisher)

**107053R** Uniwersalny klin pod koło, L=210mm, W=120mm  
(Universal car wedge, L=210mm, W=120mm)

**107054R** Uchwyt uniwersalnego klina pod koło, L=210mm, W=120mm  
(Holder for universal car wedge)

**107088R** Zabezpieczenie antykradzieżowe na korek wlewu paliwa o średnicy fi 80  
(Anti-theft system for the fuel filler cap fi 80)

**107089R** Zabezpieczenie antykradzieżowe na korek wlewu paliwa o średnicy fi 60  
(Anti-theft system for the fuel filler cap fi 60)

**107097R** Obejma zbiornika gazu fi600  
Clamp for gas tank fi 600
